Environmental Policy

The Best Chairs for your Body

SOMA CARES ABOUT OUR ENVIRONMENT

We use soy and water based inks and print on recycled or tree free paper because

Producing one ton of paper from discarded waste paper uses

- half the energy,
- half the water,
- results in 74 percent less air pollution and 35 percent less water pollution,
- saves 17 pulp trees, reduces solid waste going to landfills, creates five times more jobs than producing a ton of paper from virgin wood pulp and ...

EVERY TON OF RECYCLED PAPER SAVES

- Approximately 17 trees
- 4,100 kwh of energy (enough to power an average home for six months)
- 7,000 gallons of water
- 60 pounds of pollutants from release into the atmosphere

If all printing companies used only soy-based inks, the U.S. could save 5-6% of our oil imports, about the amount of oil we imported from Iraq in 1989. SOMA Ergonomics uses non-toxic inks and recycled paper because, in the long run, it helps everyone--helping make the world just a little bit better, every day.

And to further that process we also run Soma Ergonomics based on an equitable set of rights.

SOMA ERGONOMICS BILL OF RIGHTS

- The right to create the best products and participate in processes that do not harm others;
- The right to work in a clean, safe environment;
- The right to a job that is meaningful, worthy, and constructive;
- The right to work for companies that pay fairly;
- The right to be told the truth about the company and its products;
- The right to participate in critical and substantive decisions;
- The right to not exploit people, other life forms or our environment.

Why Soma?

The Best Chairs for your Body

- **The best support and injury prevention through better research.**
- **More than Adjustments. Real Ergonomics.**
- **More than a chair. A modular chair system.**
- **The ability to accommodate almost any user, workstyle or special need from a standard chair.**
- Soma is totally committed to support you and your satisfaction.
- The only chairs with features clinically proven to decrease injuries such as repetitive strain, lower back pain, upper back, neck, and shoulder tension, sciatica and more.
- Soma's modular chair system is the easiest to customize so you can accommodate any person's needs from 4' to 6'-8" and 500 pounds.
- Made in the USA with the highest quality recycled and recyclable components.
- A real take back and recycling program. Soma will take back and refurbish, reconfigure or recycle your old chairs as our commitment to your chair investment and the environment.

MISSION

To design, manufacture and market affordable, real ergonomic products clinically proven to address and prevent the root causes of back and neck pain, carpal tunnel and other repetitive strain injuries. To do this in a socially responsible and environmentally sustainable manner. And to the exacting specifications of world class computer users, ergonomists, therapists, physicians, interior designers and architects to create products of greater comfort, ease of use, injury prevention, aesthetics and quality.

LEAD TIME

Standard: **2-4 weeks**. Quick Ship: 2-5 **days on standard products with select fabrics**. Custom and large volume orders: **3-8 weeks** determined by customer's needs, inventory availability and order volume. Consult with your rep for your project.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY

SOMA uses environmentally sustainable, non-toxic recycled/recyclable materials whenever possible; For example water-based formaldehyde-free glues, recycled and recyclable components, recycled packaging, as well as organic and/or dye free fabrics. Additionally Soma has an industry-leading refurbishing/re-cycling and chair take back program. Call us for details.

Testimonials

Customers give Soma thumbs up ratings

Below are a very small sample from thousands of positive testimonials that illustrates the main themes of complements that customers have given Soma and SomaChairs over the past 20 years.

SOMA™
More than a Chair
A Modular Chair System
More than adjustments
Real Ergonomics
www.somaergo.com

I have preferred only one chair company for the past eight years: Soma Ergonomics. There is only one chair style that I have recommended for the past eight years to be an integral part of the ergonomic programs that I have brought to companies either launching or expanding ergonomics programs. The Open System Seating SomaComfort/SomaForm chairs. There is no equivalent in my professional opinion.

—Melinda Bergquist, M.A., ATC
President, Ergonomic Consulting Services

In my 23 years of practice as a chiropractic physician and as a teacher of chiropractic at Palmer West College of Chiropractic, I have not been as excited about an ergonomically designed chair as your Soma chair and I will enthusiastically recommend it to my patients. . . . It is by far the most ergonomically advanced of all the desk/office/computer workstation chairs I have seen, many of which are double the cost.

—Ron Dunn, D.C. Instructor Palmer West

I got the chair the other day, and it's amazing!. I never knew how uncomfortable I was before I got my new SomaChair. Thanks, Mark

—Mark B. Taylor, CPA, MS Taxation, San Mateo, CA

Just days after I got my Soma chair I noticed my 20 year back pain was gone! I was able to work longer hours and to maintain better focus on running my business rather than on my back pain!

—Ron Michelson, Business Owner

Soma's ThorSac™ backrests provide outstanding lumbar support for even the hard to fit body type.

—Eileen Vollowitz, PT, Founder of Back Designs
and nationally recognized ergonomist

Soma chairs are so comfortable. They make all the difference. I have a repetitive strain injury and the SomaComfort™ chair has really helped me at work. It supports you and they can tailor make it to fit you just right. I will be buying another. I love 'em!

—Shelley Coleman

I love the chair, and my massage therapist hates it because he never sees me anymore. Yay! No more botox injections for the neck and shoulders!

—Diana Nichols, Court Reporter

Mechanism Types

The Best chairs for your Body

Mechanism

<u>Type</u>	<u>Name:</u>	<u>Suggested Use</u>
H	Height only:	Best for short term use. Seat height and back depth only. 1 paddle on middle right: Seat height adjustment.
C	Conference:	Best for conference room chairs for ease of use. One lever for both seat height and synchro-tilt lock lockable in 5 positions. Back height ratchet back. Optional: Seat depth adjustment with paddle on front left of seat
S	Steno/Basic:	Best for dedicated forward or upright tasks 2 paddles on right: seat height, and seat angle. 1 paddle on back left: back angle adjustment lever. Back height adjustment options: lever or knob on right, or ratchet mech. Optional: Seat depth adjustment with paddle on front left of seat
R	Rocker:	Best for dedicated forward or upright tasks as well as dedicated reclining and longer term sitting. 3 paddles on right: seat height, seat angle and back angle. 1 paddle on back left: Seat depth. 2 knobs: front right forward tilt limiter. Front left recline tension adjustment Back height adjustment options: lever or knob on right, or ratchet mech. Limited to users under 325#
Rz & R1	Rocker:	Best for dedicated forward or upright tasks as well as occasional reclining and longer term sitting. Includes built-in seat slider/depth adjustability. 1 paddle on back left: Seat depth. 2 knobs: front right forward tilt limiter. Front left recline tension adjustment Back height adjustment options: lever or knob on right, or ratchet mech. Limited to users under 275#
K	Knee Tilt:	Best for dedicated forward or upright tasks as well as reclining and longer term sitting as well as for users who often change from forward to upright to reclined positions. Limited to users under 190#
E	Euro Synchro-Tilt:	Easy to adjust with wide tension adjustment range to accommodate widest variety of user weights. Best for dedicated task as well as reclining and longer term sitting as well as for users who often change from upright to reclined positions. Excellent standard mechanism for all around office use. Limited to users under 350#
V	Venture Synchro-Tilt:	Sleek design that is a little harder to adjust than the E mechanism. Best for dedicated task as well as reclining and longer term sitting as well as for users who often change from upright to reclined positions. Excellent standard mechanism for all around office use. Limited to users under 300#
F	Free Float Xtra Xturdy:	Best for dedicated forward or upright tasks for users up to 500# 2 levers: 1 to lock and unlock Seat and back angle. 1 for Seat height. Back height adjustment options: knob on backrest, or ratchet mech.
W	Weight activated mech:	This is the same type of mechanism on a Humanscale Freedom chair, but unlike the Freedom chair you can lock it in place so your muscles can relax which is important for muscle relaxation and healthy blood flow. As on the Freedom chair the user's weight is used by the mechanism to provide the right amount of resistance to reclining so the user does not have to turn a lever or knob to adjust the recline tension. As the backrest reclines the weight of the user in the seat resists the reclining. 3 paddles: on right Seat height; on left seat depth and recline lock Seat depth adjustment is built in and included Limited to users under 300#

Backrest Types & Selection

The Best chairs for your Body

1. Choose a Backrest Style

Low Backs (Recommended mechanism: S or E for maximum low back support)	• Ideal for people who like to sit upright and who do a lot of data entry. • Supports the low back and lumbar region, by stabilizing the hips. • Relaxation achieved by sitting balanced over the spine unloading on top edge of backrest.
Midheight Backs (Recommended mechanism: R, E, V & K for maximum complete back support)	• Ideal for people who multitask and are in and out of their chair often. • Designed to keep shoulder blades free to form a naturally supported open posture. • Supports the low back and lumbar region, the spine.
Tall Backs Recommended mechanism: R, E, V & K for maximum complete back support)	• Ideal for people who like to recline and people with neck problems. • Designed to keep shoulder blades free to form a naturally supported open posture. • Supports the low back and lumbar region, the spine, and the neck. • Relaxation achieved by slightly reclining and resting the entire upper body against the backrest.

2. Choose Backrest Size

- a) **Low Backs:** • Choose backrest size based on the width of the backrest. The backrest should not impede the free movement of the users arms/elbows should not hit the back rest, but should be able to move past it.
- b) **Midheight Backs:** • Same as Low Backs
- c) **Tall Backs:** • Same as Low Backs
 • Measure torso height (see **FIGURE B** to determine which tall backrest to choose (see **CHART.B**)

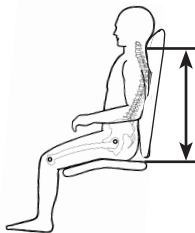

CHART B

Sitting Height to Nape-of-Neck Height

< 22": 26" Tall Back (i.e. TAs, TBs, TCs or TJs)

22" - 29": 32" Tall Back (i.e. TAt, TBt, TCt or TJt)

Terms & Conditions

The Best Chairs for your Body

All sales are subject to the following terms and conditions:

Price

For U.S. orders our prices are F.O.B. our warehouse Ceres, California. Prices are subject to change without notice. Prices do not include freight, storage, insurance and special handling and packing charges may be applicable.

Terms

All orders must be accompanied with a signed purchase order and a 50% deposit with the balance and shipping charges payable prior to shipment. For customers with approved credit the terms of payment of the balance are clearly indicated on the invoice. SOMA ERGONOMICS, INC. reserves the right to withhold shipment or production of customer's orders until approval by SOMA ERGONOMICS, INC. credit department. Interest at 1.9% per month will be charged on overdue accounts with the client liable for reasonable collection charges. The customer is responsible for shipping charges for changes or that must be done at the Soma factory. Installation of field installable alternate or replacement parts requested by a customer are also the responsibility of the dealer and/or end customer.

Acknowledgement

Orders are acknowledged by fax or in writing with the terms and conditions as stated constituting the entire sales contract and superceding all other documents, quotations and agreements, written or oral.

Shipping/Freight Policy

Shipping date is confirmed upon receipt of order. In the absence of specific instructions, we will use our best judgement for routing shipments. All shipments are F.O.B. our warehouse. Drop shipments are sent prepaid and freight collect basis. All furniture is inspected by us prior to shipment. We are not responsible for delays, damage or loss suffered in the transit or storage by the shipper.

Shortages or Damages

All merchandise is packed to comply with shipper requirements. **For your own protection, all shipments should be carefully inspected by the consignee before acceptance of the goods and the delivering carrier should be requested to record any damage to goods or cartons at the time of delivery and have the driver note any shortages or damage on the delivery receipt.** If further damage is found after delivery, immediate inspection by the delivering carrier must be requested. Notification of concealed damages must be made to the delivering carrier at once. All cartons and packing materials must be held for inspection. **Carrier liability ceases after 15 days.**

We will assist our customers at all times to obtain claim settlement, but the consignee must take the necessary steps to obtain the proof of loss and damages.

Return Merchandise

Merchandise may not be returned without prior consent from the Customer Service Department. Special order items may not be returned for credit. Please notify us in writing with the invoice number, date of shipment, shipping location and reason for return. Instruct the consignee to hold the merchandise for final shipping instructions.

All return merchandise is subject to a 25% restocking charges. For merchandise return after 90 days from the date of the invoice call customer service to reconfigure or recycle.

Warranty

The Best Chairs for your Body

SomaChairTM Limited Warranty

SomaChairs are built-to-last and designed to provide many years of service under normal use. SomaErgonomics, Inc. (SOMA) warrants to the original purchaser that its products are free from defects in materials and workmanship and carry the following Warranties *when used within a 40 hour work week by a person weighing 250 pounds or less for standard chairs and up to 500 pounds for heavy duty chairs.* Warranties are calculated from the date of shipment:

Premium Chair line warranty

Limited lifetime warranty on **SomaComfort/SomaForm & Rockit** fabricated chair frames against structural failure, and on bases, lifts, casters, and glides under normal use.

Standard and Budget Chair line warranty

Twelve (12) years on **SomaSupport, Contour, Venture, Infinity, Hybrid, ErgoKinetic, Fit, PerfectFit, Mesh, ConChairto** and all other SomaChairs not listed above.

Bariatric/ Xtra Sturdy Chair line warranty

Four (4) year warranty on frame, base and casters for users up to 500#.

On all chair lines except those use in 24/7 environments.

Five (5) years on chair mechanisms, and adjustable arm supports under normal use.

Three (3) years on fabric, seams, cushioning and arm pads under normal use.

24/7Chairs When any SomaChair is used in an over 40 hour per week setting, a simple two (2) year warranty on all parts will apply.

Replacement parts for parts needing replacement and that can be installed in the field will be shipped to the customer at no charge. Defective part must be returned to Soma otherwise customer will be charged. Installation of field replaceable parts (Backrests, casters, bases, lifts, arm supports and pads) is the responsibility of the customer or the Soma certified dealer through which product was sold. For chairs that need to be returned to the factory for repair the customer is responsible for any return packing and shipping costs.

No implied warranties, including warranties of merchantability and fitness for any particular purpose extend beyond the terms of these express warranties. These warranties do not apply to any products which have been repaired or altered in any way so as to impair performance or reliability, nor to products which have been misused, abused, neglected or accidentally damaged in transit. SOMA ERGONOMICS, INC. liability for its products shall be limited to repairing or replacing parts determined by SOMA ERGONOMICS, INC. to be defective or, at SOMA ERGONOMICS' option, to refunding the purchase price of such parts.

SOMA ERGONOMICS, INC. will not be liable, under any circumstance, for incidental or consequential damages (including, without limitation, lost revenues) arising in connection with the sale, use, inability to use, repair or replacement of SOMA ERGONOMICS, INC. products. The remedies of the purchaser set forth in this warranty are exclusive and the liability of SOMA ERGONOMICS, INC. arising from any cause whatsoever shall not exceed the price paid for the products. Some states do not allow limitations of incidental or consequential damages, so the above limitations and exclusions may not apply to you. Enjoy the world class real ergonomic support your SomaChair give you and thanks for buying SomaChairs.

Soma Grade-in Fabric Program

The Best Chairs for your Body

ORDERING GRADE-IN FABRIC

You can order Soma Chairs with a specific, grade-in fabric. To do so you must note the following clearly on your PO:

1. Fabric Mill Name (C.F. Stinson, Guilford of Maine, Mayer Fabrics, Momentum, or Designtex)
2. Grade-In x (where 'x' is the appropriate grade)
3. The "Pattern Name" and "Color Number/Name"
4. Pattern direction/orientation instructions (see page)

If the above information is not clearly and completely noted, Soma will assume your PO to be a COM order and we will wait for your fabrics to arrive.

SELECTING PATTERNS

To choose a pattern, or to see which pricing grade (Grade-In II, III, IV, etc.) your selected pattern/s fall under, please consult the accompanying chart or go directly to the appropriate fabric mill's website. Soma's approved patterns are listed in the following "Pre-Approved/Grade-in Fabric" section pages.

Please note the grade selection noted to the right (see instruction 1 above).

GRADE-IN SAMPLES

To obtain fabric samples, please contact the appropriate fabric mill directly.

Guilford of Maine	(800) 544-0200	• www.guilfordofmaine.com
Momentum Textiles	(800) 366-6839	• www.themomgroup.com
Mayer PaetzFabrics	(800) 428 4415	• www.mayerfabrics.com
CF Stinson	(800) 841-6279	• www.cfstinson.com
Designtex	(800) 221-1540	• www.designtex.com

SPLIT ORDERS

If you would like the items of your order that are not part of the Grade-in program to ship sooner than the Grade-in portion of your PO, please contact Soma to coordinate.

If the order is shipped in 2 or more parts a higher shipping cost for the PO may be incurred.

LEAD TIMES

Normal Soma lead times for items ordered under the Grade-in program will be measured from the date of the receipt of all fabrics specified for a PO.

Order changes requested after the the original submission to Soma may result in a longer lead time. Actual order processing / lead times are subject to individual customer credit terms and standing and for standard lead times to apply all customer accounts must in good standing.

WARRANTY

There are no warranties implied or given under the Grade-in program by Soma beyond the specific fabric mill's original warranty coverage.

CHANGE ORDERS AND CANCELLATIONS

For orders that have entered any stage of the production process, Soma can not accept change orders or cancellations.

All fabric order changes (either Soma Ergonomics textile or Grade-in) must be received within 24 hours of the original PO submission. Fabric changes to orders after the initial 24 hour period may be assessed additional fees.

The Best Chairs for your Body

IMPORTANT SO THAT YOU GET WHAT YOU WANT

Fabrics / fabric patterns often have specific or intricate patterns in them which make them particularly interesting or appealing and different people often want to highlight a fabric's features in different ways. In order to avoid any confusion and **to assure that your order comes out the way you want**, please use the form on the next page with your purchase order to specify fabric orientation.

HOW MUCH FABRIC YARDAGE IS NEEDED?

Yardage per chair is estimated in this price list and based upon 54" wide, plain or non-directional material.

Additional yardage may be required if striped or patterned material is used, if pattern requires matching or if width of material is less than 54" wide. Please call us at (800) 836-9130 if you have questions.

PROCESSING TIME

Orders for production of COM, COL and Grade-In's upholstered products are not scheduled for processing until upholstery material is received. SOMA will not ship orders until 3-7 business days after receipt of fabric(s) and/or material(s). No CBD or credit hold terms.

SPLIT ORDERS

If a portion of your shipment does not require COM, please specify whether SOMA should ship complete or split. By default, SOMA puts orders on hold until all material is received. Please contact us if you need to split orders.

CANCELED OR CHANGED ORDERS

Customers are responsible for the cost of the chair and any additional penalties as well as for arranging the return of any extra COM, COL or Grade-In's resulting from changes in upholstery material or cancellation of an order. SOMA assumes no responsibility for this material.

EXCESS UPHOLSTERY MATERIAL

Soma will dispose of all excess upholstery material unless the customer specifically arranges otherwise in writing to customerservice@somaergo.com.

UPHOLSTERY MATERIAL DISCREPANCY

Soma assumes no responsibility for defects in, or performance of, COM/COL. But if we detect any flaws with the upholstery material that we receive, we will immediately notify the customer by email or by phone. In such a case, Soma will hold the order until the customer advises us on what to do next. Soma is not responsible for any delays on orders in which customer instructions are pending so please fill out the form on the next page completely and make sure to send it in with your PO.

COM, COL & Grade in Fabric

The Best Chairs for your Body

Please make a copy and send this form to us filled out completely with your PO/s for orders with directional or intricate fabric designs.

Your name and company: _____

Purchase Order number: _____

Phone number and email address: _____

Soma Quote or order number: _____

EXTRA MATERIAL: If any material remains after completion of my order, please ... circle one

A. Dispose of it for me (default).

B. Return it to me (we will bill you for the freight cost).

C. Other Instructions: _____

Please circle A or B to indicate how you would like the fabric to run:

A. Railroad

B. Top down

Complex pattern (see explanation/information below)

Seat

Back

SOMA MATERIAL GUIDELINE HIGHLIGHTS COM / GRADE-IN

- Unless otherwise stated, Soma will use its own discretion in choosing fabric direction (usual default is Top Down as illustrated in B. Top Down above right diagram).*
- COM must be provided as continuous yardage, and is based upon 54" wide plain or non-directional material.
- Do not fold materials. SOMA is not responsible for material that is damaged or wrinkled upon receipt.

COL

- Leather should be sent in rolls, do not fold. SOMA is not responsible for material that is damaged or wrinkled upon receipt.
- Outer edges of leather can not be calculated as square feet or yardage.

COM & COL

- To avoid delay, all materials sent to Soma must include the Soma Order number and your PO number with us, clearly marked or tagged on all material.
- All fabrics and leathers will be examined before cutting and SOMA is not responsible for material that is damaged upon receipt.

COMPLEX PATTERNS Positioning of intricate patterns or pattern repeats on seat and back are centered unless otherwise specified by customer). Customers can use the boxes provided above to sketch how they want patterns to appear. Be advised that if your COM or Grade-In's fabric has stripes, you need to state in your PO whether a vertical (up/down) or horizontal (left/right) orientation is to be applied. Otherwise, SOMA will use its sole discretion. Large pattern repeats may require up to 25% additional yardage.
