5 stars ★★★★★

“Best chair I ever tried and owned”

*“I have the privilege of helping people every day
and the equipment to see root causes of
back and neck pain, migraines, etc
and what enhances or blocks blood flow,
especially to the brain and arms
so when I saw and sat in a Soma Chair
it was immediately my favorite chair.”*

Dr. James C • Professor of Anatomy & Chief Radiologist

Introducing Open Systems Seating
Best alignment & support for your
upper back, neck and shoulder,
lower back and sciatic pain and
optimal performance at work.

These high-tech chairs were originally designed in Silicon Valley for elite computer users to improve performance at the top high-tech companies.

They contain a unique type of seat and backrest that relieves all types of mis alignments that result sub-optimal comfort, health and performance, ie. Pain

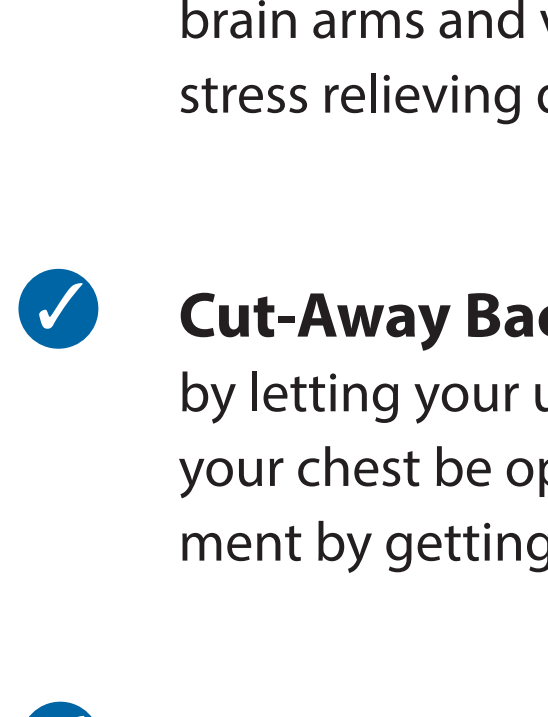

It is a unique anatomically correct set of contours, support and freedom of motion that is now making a comeback.

By not blocking the body in specific areas your body is allowed to go into your most natural beneficial posture so muscles can let go and relax and optimal blood flow and stress relieving deep breathing can be restored without effort.

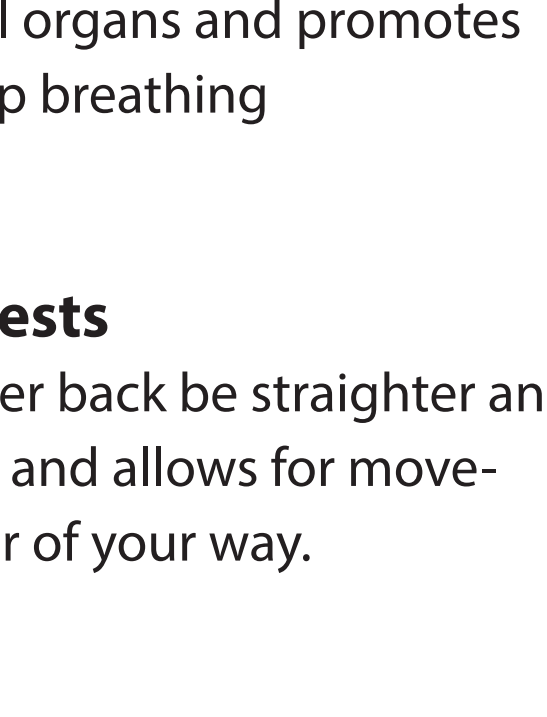

The unique cut-away backrests allow your upper back, neck and shoulders providing pain relief and comfort, allowing you to work comfortable all day.

Each detail improves your posture and enhances your comfort, health and performance so you can be happier, healthier and more productive, ie. higher performing.

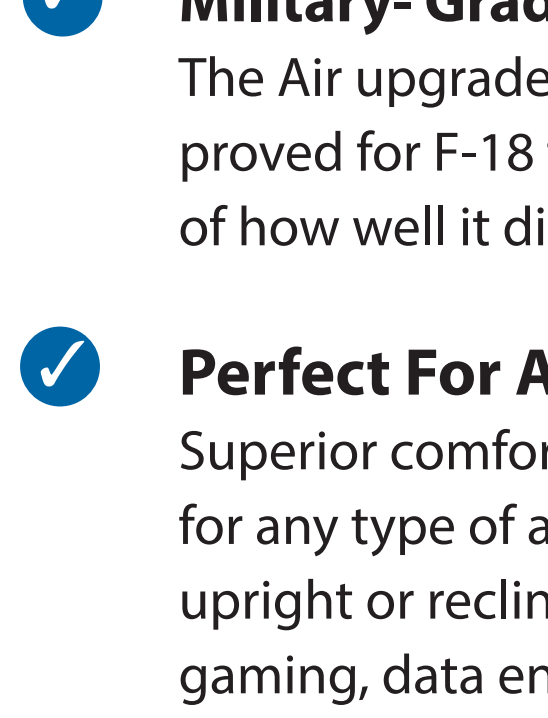

These chairs help optimize your
comfort, health and performance
relieving your back, neck and
shoulder pain, sciatica, migraines,
and RSI's by opening your
posture and appearance.

We have over 100,000 happy customers & now you can be well supported too!

I got the chair the other day, and it's amazing! I never knew how uncomfortable I was before I got my new SomaChair. Thanks!
Mark B. , CPA, MS Taxation, San Mateo, CA

Just days after I got my Soma chair I noticed my 20 year back pain was gone! I was able to work longer hours and to maintain better focus on running my business rather than on my back pain!
Ron Michelson, Business Owner

I tried a lot of high end office chairs and settled on a Soma Comfort tall back chair. I am tall and have RSI and both of those affected my choice so it might not be the best for you, but it's definitely worth trying out.
Adam D'Angelo, Quora CEO

Soma's ThorSac™ backrests provide outstanding lumbar support for even the hard to fit body type.
Eileen Vollowitz, PT, Founder Back Designs and nationally recognized ergonomist

Soma chairs are so comfortable. They make all the difference. I have a repetitive strain injury and the SomaComfort™ chair has really helped me at work. It supports you and they can tailor make it to fit you just right. I will be buying another. I love'em!
Shelley Coleman

I love the chair, and my massage therapist hates it because he never sees me anymore. Yay! No more botox injections for the neck and shoulders!
Diana Nichols, Court Reporter

Some days I can literally sit for 12 to 15 hours in a single day. My Soma chair is the first chair I have ever had in my 30 year career that I can sit in all day and be comfortable and productive without pain.
Holly Woods PhD HollyWoodsCoaching.com

My butt totally thanks you! I love my chair! It is beyond comfortable. Like sitting on a cloud. And you can quote me. I wrote my best-seller sitting on this chair. and it is in my favorite red color. It is wonderful!
Deb Dutcher, Founder www.sexyleanandstrong.com

I have a customized Soma Comfort chair. It's modular, so you can pick and choose the parts you want and it's much more comfortable than any other chair I've used, including the Herman Miller chairs.
