

TJ-101 Gear Reduction Auger Drive Unit with Innovative New Mounting System

- Featuring a LOWE® designed and manufactured gear-box. Made in the USA.
- For Mini-Loaders with Toro-Dingo* compatible mountings and other brands of smaller machinery.
- Innovative new high lift mounting has better carrying stability and allows use of four foot (1.3m) long augers.
- Unit has fully protected hydraulic hoses.
- Choose either a 2 inch (51mm) hex shaft or a 2 - 9/16 inch (65mm) round shaft.
- Use augers up to a 24 inch diameter (914mm) depending upon conditions.
- Backed by a five-year repair or replace warranty on the gearbox.

*Toro and Dingo are registered trademarks of the Toro Company.
