Sarah
Connell Sanders

Sarah Connell Sanders has been a MA public school teacher for over 14 years. She is currently a Teaching Librarian in the Worcester Public Schools and was previously an English teacher, English Department Chair, and Media Specialist.

Sarah is the author of *Small Teaching K-8*, recently published by Jossey-Bass. Via clear descriptions and step-by-step methods, Sarah demonstrates how to integrate simple interventions into pre-existing pedagogical techniques to dramatically improve student outcomes.

TIMELY TOPICS BASED ON YOUR NEEDS & INPUT

JANUARY 27

Retrieval

Students are incapable of creativity if they lack information in their long-term memories. Increase opportunities for retrieval using tools like MagicSchool and Diffit.

FEBRUARY 24

Prediction

Stimulate curiosity by asking students to make predictions with tools like Google's Teachable Machine and Brisk.

MARCH 31

Self-Explanation

Teach for transfer and encourage students to practice their skills in fresh contexts with tools like Meta AI Animated Drawings, Canva Magic Media, and Perplexity.

APRIL 28

Motivation

Set goals and establish a sense of purpose with tools like Gemini and History Hello.

MAY 26

Building Your Blueprint

Synthesize the previous sessions into a cohesive, actionable plan by integrating multiple techniques and tools simultaneously, moving beyond individual exercises to create an AI-leveraged learning environment.
