FEBRUARY 10TH

Autism Spectrum Disorder

Understand what ASD is & is not, the characteristics of autism & how students with autism can present in school. Discover social, communication & academic strategies, modifications, accommodations & reinforcements to support ASD students.

MARCH 10TH

Social Emotional Learning

Explore the core principles of SEL & how building these skills supports students' overall well-being, relationships, and academic success. Highlight common challenges such as emotional regulation, peer conflict, and stress management, while offering practical, evidence-based strategies.

APRIL 14TH

Executive Functioning

Learn the core components of EF—including working memory, cognitive flexibility, inhibitory control—and its critical role in children's learning, behavior, & daily life skills. Recognize common signs of challenges like difficulty following directions, organizing, regulating emotions & maintaining attention.

MAY 12TH

Understanding & Managing the Impact of Screens & Technology on Students w/ IEPs

Explore the influence of digital devices on children's cognitive, emotional, social & physical development. Get clear, research-informed guidance on how to manage technology in ways that support healthy development. Gain practical strategies & insights to collaborate with colleagues to meet the unique needs of your students.
