# ASSET MANAGEMENT SOLUTIONS

*With the Derry / Zebra cloud-based, RFID solution.*

## Your law enforcement challenges aren't generic.

The technology solutions shouldn't be either.

Derry Software and Zebra Technologies combine advanced, user-friendly software with the ease and accuracy of RFID.

| View detailed inventory reports, including location of assets | Improve inventory accuracy with RFID | Use with or without network access | Easy integration with other systems | Save time with an almost effortless inventory process |
|---|---|---|---|---|

**Derry Software** developed **SAMRMS**—Stick and Move Records Management System—to give investigators a cloud-based program to rapidly gather, access, analyze data and generate reports. SAMRMS features comprehensive Case Management, Search, RMS, Case Funds, and Evidence Management functions.

**SAMRMS**
BY DERRY SOFTWARE

Agencies can integrate SAMRMS and RFID technology with **Zebra Technologies**. As the global leader in RFID mobile technology, Zebra engineers rugged mobile computers, tablets, sleds, and readers. Get long-range reading of barcodes, without the need for line of sight or even sufficient light. With unmatched reliability, ease of use, advanced features, and versatility, Zebra's RFID portfolio is the right match for SAMRMS.

## SAMRMS + RFID. YOUR TIME-SAVING CRIME-SOLVING DUO.

Contact Derry Software to learn more and schedule a free SAMRMS and RFID DEMO.

# SEE WHAT YOU'RE MISSING.

*Track valuable assets out of view.*

With a read range of more than 20 feet—without line of sight—Zebra Technologies' RFID-enabled mobile devices and fixed readers provide essential support for **Healthcare, Fire and Emergency Services, and Governments.**

## RFID: Quick, Easy Accurate

Locate lost and misplaced items, monitor maintenance schedules, manage inventory with low-count alerts, and access all data in real-time.

Save time and money with the ease, reach, and accuracy of RFID. Capture **1,300 tag reads per second**—without reaching into containers, opening cartons, and even getting within 20 feet of what you're scanning.

## Across all industries, reap these benefits:

| Ensure compliance tracking | Identify staff, including location and access control | Increase visibility in real-time | Reduce errors | Improve productivity |
|---|---|---|---|---|

## In addition, experience industry-specific advantages.

### HEALTHCARE
- Verify patient identification
- Accurately record medication administration
- Track specimens
- Manage pharmacy
- Locate medical devices

### FIRE AND EMERGENCY SERVICES
- Ensure staff and vehicles are supplied with sufficient, operating equipment
- Locate team members on-site

### GOVERNMENT
- Identify employees and visitors
- Manage budgets with better visibility

Derry Software is a Zebra Technologies partner, with expertise in Zebra's extensive RFID solutions portfolio. We customize solutions to meet your challenges, including ease of deployment and use, affordability, and responsive, professional support..
