CAPABILITIES STATEMENT

RFID Asset Management Solutions

RFID is a powerful upgrade from traditional bar codes. With solutions from Derry, users can capture 1,300 tag reads per second – without opening containers or getting within 20 feet of the items they're scanning. RFID technology also enables users to locate lost and misplaced items, monitor maintenance schedules, manage inventory with low-count alerts, and access all data in real time.

ABOUT DERRY

Derry Software delivers advanced RFID solutions that enable organizations to achieve exceptional visibility and control over mission-critical assets. Specializing in rugged hardware and customized workflows, our systems are trusted by government agencies and business leaders to optimize inventory accuracy, reduce operational costs, and ensure regulatory compliance.

PARTNERS

Derry partners with industry leaders Zebra Technologies and RedBeam to power our cutting-edge RFID systems.

CORE COMPETENCIES

> Cloud-based software centralizes asset data with highly customizable workflows, dashboards, analytics, and reporting.
> Rugged RFID readers and tags, ideal for field operations and high-stakes environments.
> Easy integration with other systems.
> Comprehensive bar code scanning solutions.

DIFFERENTIATORS

> Scalable Architecture – SOC 2 Type II-certified cloud infrastructure supports enterprise-wide operations and unlimited scalability.
> Adaptable technology – Use with or without network access.
> A "Geiger counter" type experience – Easily and quickly locate specific assets.

PAST PERFORMANCE/BAR CODE SOLUTIONS

> Carter County Sheriff's Office, TN
> Hawkins County Sheriff's Office, TN
> East Ridge Police Department, TN
> Grady County Sheriff's Office, GA
