The Big Puppy Problems (and How to Fix Them)

 Problem	 Solution	 Ted's Wisdom
Toilet Training	Stick to a routine, praise outdoor wees, and clean accidents thoroughly.	<i>"And for the love of bones, don't rub their nose in it. That's just rude."</i>
Chewing Everything	Give plenty of chew toys and keep valuables out of reach.	<i>"Shoes taste amazing. Don't blame the pup – hide your shoes!"</i>
Jumping Up	Teach "sit" for greetings and reward calm behaviour.	<i>"Humans squeal when we jump. That's basically applause – we think you love it!"</i>
Biting & Nipping	Redirect with toys and stop play if bites get too rough.	<i>"Those tiny teeth are like razors. Don't be a chew toy, mate!"</i>
Not Listening	Use short sessions, clear commands, and tasty rewards.	<i>"If the treats are rubbish, we're not listening. Simple as that."</i>
