Lifespan	10–12 years
Coat	Short, smooth, low-maintenance
Temperament	Playful, affectionate, alert
Best For	Apartment living, singles, families
Exercise Needs	30–45 mins daily

French Bulldog Care Essentials

Training & Socialisation: Intelligent but can be stubborn. Use positive reinforcement and start socialisation early.

Exercise: 30–45 mins daily. Avoid overheating and exercise during cooler times of the day.

Grooming: Weekly brushing. Clean facial folds regularly to prevent infection. Bathe every 4–6 weeks.

Health: Prone to breathing issues, skin fold dermatitis, and eye problems. Choose a breeder who health tests.

Diet: Balanced, high-quality diet. Adults: 2 meals/day. Avoid overfeeding to prevent weight gain.

Family Suitability: Affectionate and adaptable. Great for families, singles, and apartment living.

Max's Comment: "Small dog, big attitude, and even bigger snore — but impossible not to love."
