Groodle (Goldendoodle) Care Sheet

A quick reference guide for keeping your Groodle affectionate, healthy, and well-groomed.

Quick Facts

Trait	Details
Size	Medium to Large (15–35 kg)
Height	50–66 cm at the shoulder
Lifespan	10–15 years
Coat	Soft, wavy to curly, low-shedding
Temperament	Affectionate, intelligent, friendly
Best For	Families, singles, active owners
Exercise Needs	45–90 mins daily

Groodle Care Essentials

Training & Socialisation: Intelligent and eager to please. Use positive reinforcement and begin early socialisation.

Exercise: 45–90 mins daily. Mix walks, play, and brain games.

Grooming: Brush 3–4 times a week. Professional grooming every 6–8 weeks to prevent matting.

Health: Generally healthy but can be prone to hip/elbow dysplasia and eye issues. Choose a breeder who health tests.

Diet: High-quality, balanced diet rich in protein and healthy fats. Adults: 2 meals/day.

Family Suitability: Gentle, affectionate, and great with kids and other pets.

Max's Comment: "Fluffy, friendly, and far too smart to fall for the same trick twice — unless it involves food."
