FIRE INSPIRED™

NEW PRODUCTS IN STOCK

SMARTARC

HPC proudly presents its next evolution in outdoor ignition technology: SmartArc, an electronic tiki torch. This CSA-certified fire feature uses a 30-volt DC power supply system that does not require flame rectification for operation and does not require a thermocouple or pilot flame. The system monitors the ignition's voltage and current output to maintain the flame. Available for both natural gas and liquid propane applications!

METAL FIRE PIT ENCLOSURES

Meet Agni and Tejas, our two brand-new all-metal fire pits. These new enclosures marry elegance and efficiency by providing out-of-the-box, turnkey simplicity and unrivaled finish quality. Select the Agni round fire pit design and pair it with our signature Penta Burner, or choose the Tejas rectangular design paired with our H-Burner. These plug-and-play fire features are the perfect fit for your backyard or outdoor living space, available with six different powder coat finishes: black, white, java, pewter, silver vein, and grey. With our new metal enclosures, there's something for everyone!

Agni (above) and Tejas (below)

CONCRETE FIRE PIT ENCLOSURES

Curate your outdoor living space with a beautiful concrete fire pit enclosure from HPC. This brand new collection pairs ultra-light concrete with HPC's signature ignition systems and helps to make memorable moments for everyone that gathers around them. Weighing less than half of competing enclosures, they are easy to ship and install on any project including rooftops, patios and commercial applications. Install confidence with enduring concrete fire pits by HPC.

SmartARC TK Torches

CERTIFIED FOR SAFETY

Fire Pit Inserts

The proven leader in outdoor fire technology, HPC offers:

- More CSA-certified inserts than any other company
- Inserts in assorted shapes and sizes, including 36" and 42" square and 54" round inserts, as well as Penta burner, H-burner and linear designs
- Three CSA-certified technologies for all inserts: Match-Lit, Push-Button / Flame Sensing, and Remote / Bluetooth Controlled Electronic Ignition
- Inserts that come complete with burner, pan and related electronics
- **NEW** - Linear trough and rectangular H-burner inserts now have flat pan options!

The patented SST Torpedo Burners yield an enhanced bonfire like aesthetic and the largest CSA Certified flame on the market.

Interlink Insert

Lifetime warranty on burners!

Patented Penta Burners

Blowout box protects from wind and rain. Newly designed vents for proper combustion, whatever the weather.

Innovative raised hub design – reduces unwanted water

Patented five-lobe design creates a taller center flame for a campfire effect

More Penta advantages:

- Uses less fuel to attain same flame height as fire ring
- Burner holes engineered to give NO distinct burner pattern on low flame setting
- Low profile design requires less media
- Available with CSA-certified Electronic Ignition stainless steel flex line for easier, faster installation
- Designed to shed water – no clogging or valve damage

**CSA-CERTIFIED INSERTS
ARE FULLY ASSEMBLED
AND 100% BURN TESTED!**

FLAME CONTROL

THE GREATEST FLEXIBILITY IN THE INDUSTRY

Three certified technologies to choose from:

ELECTRONIC IGNITION

PUSH-BUTTON /
FLAME SENSING

MATCH-LIT

Our electronic ignition is now available with Bluetooth® and our new, easy-to-use HPC Fire One app available now.

Improved remote control electronic ignition

HPC has taken our electronic control module with thermocouple sensing to the next level.

- Hot surface igniter – for natural gas or propane – provides stronger, more reliable ignition with longer life
- Internal temperature monitoring automatically shuts off to prevent overheating damage to the unit
- Flame sensing – automatically relights if flame blows out
- Remote control unit – optional with on / off model – offers high / low flame height adjustment and LED fire pit performance feedback

- Meets 2020 ANSI standards for safety redundant system and humidity.

- New smaller electronic ignition box allows for easier installation

On / Off Models: Provide on / off operation via a wall switch or optional handheld remote

High / Low Flame Models: Includes new remote with on / off functions, diagnostic fire pit feedback and high / low flame adjustment. Available with Bluetooth® control and our new, easy-to-use app for Apple® and Android™ devices

Match-Lit Kits

For LP and NG applications. Includes burner, valve and key, flange, flex-line hose and fittings.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.

Apple® is registered trademarks of Apple Inc.

Android™ is a trademark of Google Inc.

ABOVE AND BEYOND

HPC X DEKKO

LIGHTWEIGHT CONCRETE CLADDING is a versatile building material that offers architects and builders the flexibility to create aesthetically pleasing facades while minimizing overall load on the building's structure.

Our North-American-made concrete cladding redefines simplicity in installation. It can be effortlessly installed using basic carpentry tools and brad nails, offering builders a straightforward means to achieve a durable, visually appealing, and fire-safe architectural surface

Dekko's craftsmanship combined with HPC's innovative technology produces products that can resist weathering and retain original form when exposed to the environment. Our products are built with longevity in mind.

STANDARD CLADDING

Standard cladding is available in 48" x 48" x 1/2" panels and can be cut on-site to fit your space, providing a cost effective solution for any project.

CUSTOM CLADDING

Cladding panels can be produced in various sizes up to 48" x 96" x 1/2". Custom raised panels are available up to 2.5" high to suit your project needs.

ELEGANCE & EFFICIENCY

FIRE FEATURES TO SUIT ANY LIFESTYLE

Metal Enclosures

Our brand-new, all metal fire pit enclosures marry elegance and efficiency by providing out-of-the-box, turnkey simplicity and unrivaled finish quality. Two models are available: Tejas, a 48" rectangular fire pit and Agni, a round fire pit with a 48" and a 60" model. We offer 6 different powder coat finishes to choose from.

Tejas - Black

Agni 60 - Java

Tejas - White

Agni 60 - Silver Vein

Aluminum Bowls

HPC's lightweight aluminum bowl offers an aesthetic appeal while boasting a powerful flame and a superior ignition system. The Aluminum Bowl series is available with two finishes: concrete and walnut. The former resembles real concrete without any of the hassle, and the latter offers a wooden aesthetic for those who prefer a warmer look over the concrete's sleek, modern appearance.

TECHNOLOGY INNOVATIONS

NEVER MISS AN ANNOUNCEMENT WITH THE HPC FIRE INSPIRED NEWSLETTER

INTERESTED IN NEW PRODUCTS, PROMOS, SALES TRAINING OR SAVINGS ON PRODUCTS?

Everything that is going on at HPC delivered to your e-mail weekly. We showcase new products, tech talks, dealer portal promos and updated contacts so you have the most relevant information.

HPC FIRE ONE APP

EVERYTHING YOU NEED IN ONE APP

The new HPC One App holds all the HPC information that you would ever need. Our 3 core apps include AR for product visualization, HITS for technical information, and the HPC FIRE app, which allows you to control your Bluetooth fire pit with your cellphone.

①

HPC AR

The Augmented Reality app allows you to see our finished products in real-time to make sure the aesthetic and look are exactly what you need for the project. This app has been a big hit in the DIY community as well as contractors that want to make sure they are getting the correct fire pit or fire feature that they need.

②

HITS

The HITS app is a building instruction, tools needed, clearance given, troubleshooting beast for anyone that has an HPC Fire feature or fire pit. Simply choose the product you are working with and let the app do the rest with step-by-step instructions for any fire pit build. It starts with tools and clearances needed and goes into the step-by-step instructions of how to properly install any HPC Fire fire pit or fire feature.

③

HPC FIRE

The HPC FIRE app allows you to control the electronic ignition-High-Low models. This app allows for the kind of control you would find on a high-end sports car on your fire pit. The HPC FIRE app does a lot more than just light your fire, it allows you to change the flame height from high to low and capitalize on the ambiance you want, it allows for parental controls by password protecting the fire feature.

DOWNLOAD THE APP TODAY

CUSTOM FIRE PIT CONFIGURATOR

Our brand new custom fire feature configurator allows users to visualize and receive a quote for their new custom design in just a few minutes. It features easy form filling and file uploads for complicated designs, a 3D rendered version of the fire pit, and an on-the-spot estimate so you can gather all of the information that you need to get your project started. Check it out at firefab.hpcfire.com.

FORNO DE PIZZA HYBRID OVENS

DON'T SACRIFICE FORM OR FUNCTION. HAVE BOTH.

Forno de Pizza Ovens, a Hybrid Gas and Wood Oven

The Forno de Pizza hybrid oven was founded on the belief that some of our best experiences in life are spent with our friends and family. Cooking together with fire brings a powerful connection to the foods you're sharing. The Forno de Pizza honors timeless styling cues from ancient Greece while marrying it with modern conveniences. Designed to cook more than just pizza, the Forno is an oven for the food enthusiast.

SMOKERS

THE ULTIMATE EXPERIENCE IN SMOKING

Stainless Steel Drum Smoker

The HPC Fire Inspired Stainless Steel Drum Smoker utilizes patented vortex technology to evenly smoke and cook food to perfection. Its unique design also maintains temperature better and burns wood more efficiently than competing smokers, allowing for up to an 18 hour cook time on one bag of lump charcoal. Furthermore, its tall, cylindrical design allows its user to smoke multiple food items, employing a two-rack internal structure.

Vortex technology is characterized by a dual intake vane system. The side intake tubes bring air in, the interior vanes distribute the air, and it exits through the exhaust on top, allowing for a delicious, evenly cooked meal every time.

Kamado Rocket

HPC's Kamado Rocket is the only US-made Kamado that can cook with any combination of gas, charcoal, and wood. It's unique, rocket-like shape allows for efficient air circulation and it's refractory construction is extremely effective at retaining heat.

Made with #304 stainless steel and aircraft-grade aluminum, we promise that your Kamado Rocket will be as durable as it is efficient. It's strength is paired with it's stunning finish: the Kamado's glass-mosaic tiles are a work of art in themselves and will make a beautiful addition to any home or patio.

Available in Ocean Blue, Pool Blue, Black Onyx, Retro, Copper, and custom colors.

MORE MEDIA CHOICES

Outdoor Logs

Three styles of high-performing, refractory fire logs are now available. Cast from actual pieces of wood, our outdoor refractory logs deliver unmatched realism and detail. Long-lasting and much more resistant to breakage, refractory logs fit linear, H-burner, square and round fire pits.

Arizona Weathered Oak

Aspen Birch

Western Driftwood

Lava Rocks and Stones

Lava rocks provide a base that increases combustion efficiency.

Lightweight black and multicolor river rocks withstand outdoor elements beautifully.

Rolled lava stone provides a smooth finish.
