

Phenomenal Js LLC

MOBILITY AT IT'S FINEST

WORKPLACE DRUG SCREENING CAPABILITY STATEMENT

Phenomenal Js LLC provides mobile DOT and Non-DOT workplace drug-screening collection services for employers, transportation operations, government agencies, and organizations. Based in Springfield, Massachusetts, we bring specimen collection directly to workplaces, helping reduce employee travel and time away from operations. Our mobile service combines documented collection procedures, established laboratory and MRO relationships, and 16 years of professional transportation experience with firsthand knowledge of safety-sensitive work environments.

Our mission is simple: bring essential workplace screening closer to the people and operations that need it.

COMPANY OVERVIEW

Phenomenal Js LLC is a veteran, woman, and minority-owned mobile service company headquartered in Springfield, Massachusetts. We provide mobile workplace drug-screening collection services designed around employer and operational needs.

Phenomenal Js supports DOT and Non-DOT urine specimen collections using documented collection and chain-of-custody procedures. Mobile service helps reduce unnecessary employee travel and disruption to workplace operations.

Backed by 16 years of professional transportation experience, Phenomenal Js understands the scheduling, safety, and operational demands of safety-sensitive transportation workplaces.

Key Differentiators

Mobile Collection Model

Phenomenal Js brings workplace drug-screening collection services directly to employers, reducing employee travel and time away from operational responsibilities.

Transportation Industry Experience

16 years of professional transportation experience across commercial trucking, passenger and school transportation, refrigerated freight, dry van, HAZMAT, tanker, and other safety-sensitive environments.

CDL Class A + Transportation Credentials

Fully endorsed CDL Class A experience provides firsthand understanding of regulated transportation operations, professional drivers, and safety-sensitive workforce requirements.

Established Collection Infrastructure

Established laboratory relationships with MedTox, Labcorp, and Clinical Reference Laboratory (CRL), with Medical Review Officer support through Cynergy.
