

Entrance Door Hardware

Our range of hardware gives you choice in shape, function and finish, all with secure and convenient locking features.

Our most popular options are shown on the following pages. Refer to your local manufacturer for the full range.

The background of the image is a dark, abstract composition featuring several intersecting planes. One prominent plane is a light-colored, slightly textured surface that cuts diagonally across the frame. Another plane is a dark, smooth surface that intersects the first. The lighting is dramatic, creating strong highlights and deep shadows that emphasize the geometric shapes and angles of the planes.

Urbo

HARDWARE

ALL HANDLES FEATURE:

- A comfortable, smooth handle that can be powdercoated to your choice of colour.

Pull handle

- Lock is fixed separately to the door, and is activated by a key or interior turn knob. A four-point locking system is available.
