

# Charger Plus MNB T R

## Specification Guide

The Charger Plus is a portable accessory designed to charge the Radiant miniBTE T R on the go. With built-in lithium-ion technology, a detachable USB-C power cable and power bank, it allows three recharges of the MNB T R

without the need for a power source. Convenient for traveling, the attached lid provides safe storage and transport of hearing instruments, and a drying function controls moisture when the lid is closed.

### Packaging set

- Instructions for use
- Power supply plug
- USB cable

### Hearing instrument charging times (when completely drained)

- 3.5 h = Fully charged
- 1 h = 40% charged
- 30 min = 20% charged

<sup>1</sup> Power plug will vary from country to country

# Charger Plus MNB T R – Technical data

## Charger Plus MNB T R

Designed for/compatibility	Radiant, minibTE T R
Dimensions	Height 76.4 mm / Width 47.2 mm / Length 95 mm
Weight	180 grams (6.4 oz)
Color	Black
Power supply plug	USB A
Status indications	LED light on charger when plugged to a power supply: Indicates charging status of the power bank. LED light on charger when disconnected from a power supply: Indicates the battery level of the power bank. LED light on hearing aids when charging: Indicates charging mode
Charging time of hearing instruments	Max 3.5 hours depending on initial state of the battery [Temperature: +10 °C to +35 °C (+50°F to +95°F)] Max 5 hours depending on initial state of the battery [Temperature: +5 °C to +10 °C (+41°F to +50°F) / +35 °C to +38 °C (+95°F to +100°F)]
Charging time of the power bank battery	Max 4 hours charging depending on initial state of the battery Temperature: +10 °C to +35 °C (+50°F to +95°F)
Power source	Supplied power supply unit
Input voltage	5V DC
Input current	Max 1A (charging internal battery and 2 hearing instruments)
Cable	Detachable cable / 150 cm
Connected to external equipment	When connected to external equipment plugged into a wall outlet, this equipment must comply with IEC-62368 or equivalent safety standards.

## Conditions of use

Operating conditions	Temperature: +5 °C to +38 °C (+41°F to +100°F) Relative humidity: 5% to 93%, non-condensing
Storage and transportation conditions	Temperature: -25 °C to +60 °C (-13°F to +140°F) Relative humidity: 5% to 93%, non-condensing
Atmospheric pressure	700 hPa to 1060 hPa

## Technical data: Power supply unit

Input voltage	100 – 240V AC
Input frequency	50 – 60 Hz
Output voltage	5V DC
Output current	1 A
