What Inspires you: The Mexican Riviera, specifically the white adobe homes with natural colored thatch roofs, large leafy green foliage and fuscia boulganvia, set against the crystal blue Pacific Ocean. Just as exciting is the culture filled with rich history, colorful textiles, fresh food and music that makes you want to dance.

NICOLA WEICKER

My inspiration:
I am a purist
Living in an Industrial Age
Inspired by Nature

What Inspires you: "As the Principal Clarinetist in the Honolulu Symphony, Jane was inspired by, and skilled at finding her way through the intimacy of the second movement of a piece. She sees the second movement in music to be a direct correlation to the journey we take in our lives, seeking a different tempo, another key and even a changing theme and variation. "It's about creating moments of sanctuary amongst a vibrant surrounding. I want your space to connect YOU to the new rhythm of your life."
