WHAT WE'RE LEARNING

Pioneers

The Pioneers have been reading Gothic literature, feeding aliens with their maths rounding challenge and building their dance skills in PE! They have also had a special breakfast club which they have loved.

Discoverers

Discoverers have been learning to cook delicious food, exploring local shops and nature spots as well as swimming! We have loved this half term!

Explorers

We have been learning about plant and animal cells, how to read maps and write grid references, learning to write for a purpose and playing badminton and basketball in PE.

Developers

We have been working on our functional skills in English and Maths and have started a photography project about the local area.

Founders

Founders have begun their studies towards GCSE English Language, Maths, English Literature, History and Science.

ACTIVITY FOCUS

PE

We have been to The Arc in Clowne for our PE in upper school. We have looked at lots of different sports. Both upper and lower school have been going swimming, also at The Arc.

YOU SAID : WE DID

You asked to improve the garden and outside environment.

You built and filled some planters made from tyres donated by the community! You are helping us plan more new spaces.

INTERNET SAFETY

Our focus this half term is the app SnapChat. Do you know what it is, how it works and who is using it? Check out ClassDojo for a guide.
