

# Tour Physical Fitness Scale

The following fitness levels describe the minimum necessary fitness that a guest, or a guest with the assistance of their travel companion, must have in order to participate in a tour with that rating. Each tour has been assigned a fitness rating. All DeLuxe Hiking tours have been assigned Level H, sightseeing tours have ratings in the range 2-5, and Sunshine Getaways trips generally have ratings in the range 2-3. Although our primary goal is that all guests will have an enjoyable experience while taking part in the tour, there are also safety, regulatory, and logistical reasons for the fitness rating assigned to a trip.

**Meeting the minimum specified fitness level will ensure that guests can fully participate in their selected tour.**
