

INDOOR ELECTRIC FIREPLACES

FIRE BY escea.

Born in New Zealand, where innovation is in our nature.

Since 2002, we've been crafting fireplaces in the deep south of New Zealand that look beautiful and perform exceptionally. It's a philosophy we call Beautiful Warmth.

Inspired by our backyard and driven by our purpose – to put a better fireplace at the heart of every home.

BEAUTIFUL WARMTH

We don't compromise performance with good looks, and neither should you. With Escea, you get the best of both worlds.

CRAFTED WITH CARE

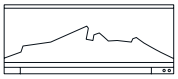

From concept to completion, our people take pride in every fireplace they have a hand in making.

UNMATCHED REALISM

From authentic wood-fire realism to modern, minimalist flames, every fireplace is designed to feel unmistakably real.

Beautifully Designed. Unmistakably Real.

With Escea Electric Fireplaces, every detail feels authentic – from flame and fuelbed to form and finish. Crafted for modern living with seamless installation, intuitive control, and the flexibility to integrate effortlessly into any space.

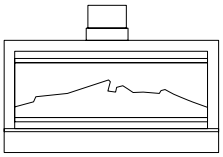

LE Series 6

Inbuilt, with a traditional wood-fire aesthetic.

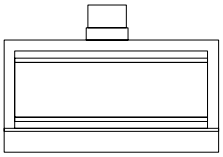

LR Series 10

Inbuilt, with a modern linear flame.

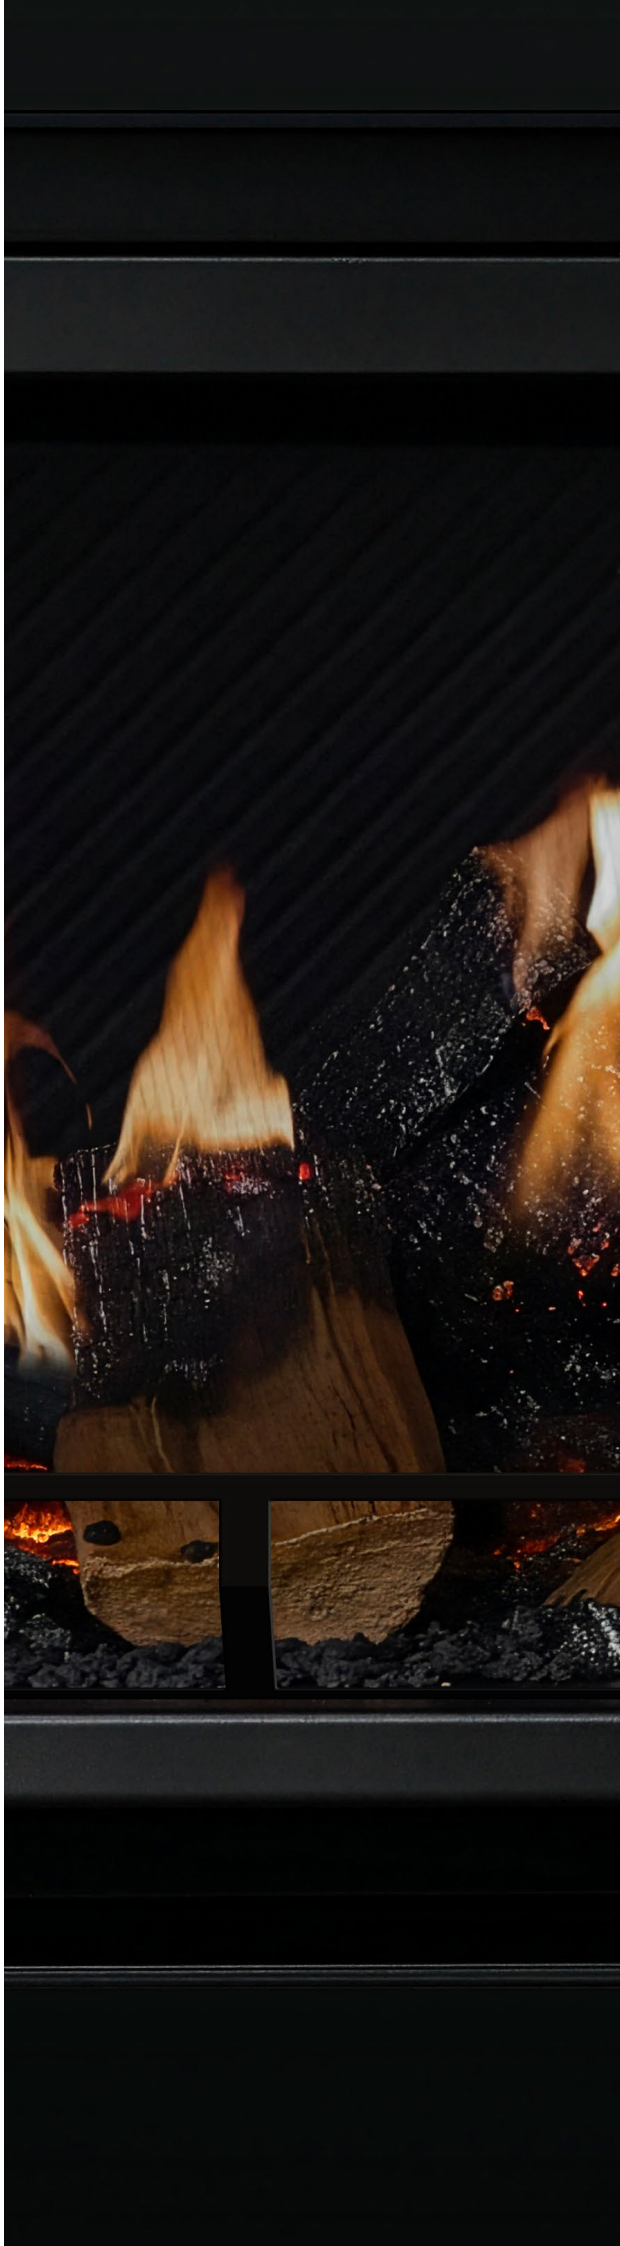

LEFS Series 14

Freestanding, with a traditional wood-fire aesthetic.

LRFS Series 18

Freestanding, with a modern linear flame.

LE1750

LE Series

INBUILT HOLOGRAPHIC ELECTRIC FIREPLACES

A realistic wood fire look, framed by a sleek linear design. Ideal for classic interiors or bringing traditional ambience into modern homes.

SIZES

MODEL	DIMENSIONS* (WxHxD)	VIEWABLE AREA (WxH)	HEAT OUTPUT	FLAME STYLES
LE800	862 × 545 × 439 mm	806 × 406 mm	1.5 or 3 kW	4
LE1000	1062 × 545 × 439 mm	1006 × 406 mm	1.5 or 3 kW	4
LE1250	1312 × 545 × 439 mm	1256 × 406 mm	1.5 or 3 kW	4
LE1550	1612 × 545 × 439 mm	1556 × 406 mm	1.5 or 3 kW	4
LE1750	1812 × 545 × 439 mm	1756 × 406 mm	1.5 or 3 kW	4

*Depth excludes Trims

FEATURES

Flame-Map Technology

Holographic flames are mapped with millimetre precision onto natural logs, with a choice of four flame styles.

See more on page 22

Natural Logs & Embers

Individually crafted logs are layered over glowing embers, illuminated and synchronised perfectly with the flame pattern.

Installation Flexibility

No flues, vents, or consent required – giving you the freedom to install anywhere and integrate seamlessly into any space.

Surround Choice

Zero Clearance rated, there's no need for fireproof materials – allowing you to choose any surround finish and place your TV as close as possible.

Selectable Heat Output

Choose 1.5kW or 3kW at installation, then enjoy consistent, thermostat-controlled warmth – or switch to flame-only mode.

App & Remote Control

Effortless control via Escea's SmartHeat App or touchscreen remote – adjust the temperature, flame settings, and timers from the car, or the couch.

LR Series

INBUILT HOLOGRAPHIC ELECTRIC FIREPLACES

Ultra-modern, with a linear ribbon of flame over crushed black glass, creating striking contrast for contemporary spaces.

FEATURES

Uninterrupted Linear Flames

A continuous ribbon of holographic flame enhanced by reflective side panels and minimalist fireplace design, with a choice of four flame styles.

See more on Page 23

Black Glass Fuelbed

A bed of crushed black glass creates striking contrast and subtle reflections, enhancing flame definition and visual impact.

Installation Flexibility

No flues, vents, or consent required - giving you the freedom to install anywhere and integrate seamlessly into any space.

Surround Choice

Zero Clearance rated, there's no need for fireproof materials - allowing you to choose any surround finish and place your TV as close as possible.

Selectable Heat Output

Choose 1.5kW or 3kW at installation, then enjoy consistent, thermostat-controlled warmth - or switch to flame-only mode.

App & Remote Control

Effortless control via Escea's SmartHeat App or touchscreen remote - adjust the temperature, flame settings, and timers from the car, or the couch.

LEFS Series

FREESTANDING HOLOGRAPHIC ELECTRIC FIREPLACES

Inspired by a classic wood fire, this freestanding design brings lifelike flames and warmth to both traditional and modern interiors.

Flame Styles

LE & LEFS Series

Escea's Flame-Map Technology captures real wood-burning flame behaviour and projects it with millimetre precision onto logs beneath. Flames wrap naturally around each log, aligning perfectly to deliver authentic depth and movement.

Choose from four flame styles – from low, smouldering ambience to richer flames with sparks and smoke, through to a fuller, roaring fire.

FLAME STYLE OPTIONS

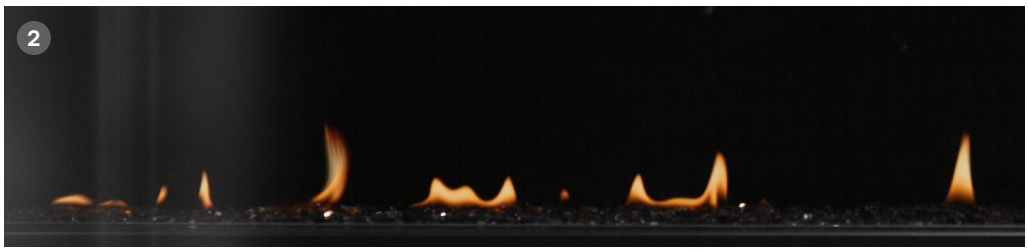

LR & LRFS Series

Holographic flames are projected in a continuous linear form over a bed of crushed black glass, creating depth, contrast, and a clean, modern aesthetic.

Four flame styles offer variation in intensity and character – from subtle background ambience to fuller, more dynamic flames, with options inspired by gas and ethanol fires.

FLAME STYLE OPTIONS

Fireplace Features

Holographic Technology Explained

Escea's holographic technology captures high-definition, real flame footage and projects it from above onto angled glass, creating the illusion of flames rising directly from the fuelbed beneath.

This layered projection adds depth, detail and dynamic movement, so flames appear three-dimensional, delivering a more natural, electric fireplace.

SmartHeat App & WiFi

Escea's SmartHeat App puts full control of your fireplace in your pocket - adjust temperature, flame settings, and schedule timers from your smartphone, wherever you are.

Whether you're in the car or on the couch, the perfect temperature is only a swipe away.

Available on all electric fireplaces, with optional smart home connectivity.

Accessories Collection

Complete your fireplace with Escea's range of complementary surround accessories, designed to streamline design and installation.

For inbuilt fireplaces, choose from traditional mantels, in-wall display niches, and framing solutions for floating hearths and ledges.

For freestanding fireplaces, select from plinths and base options to create a complete, considered solution.
