

INDOOR GAS FIREPLACES

FIRE BY escea.

Born in New Zealand, where innovation is in our nature.

Since 2002, we've been crafting fireplaces in the deep south of New Zealand that look beautiful and perform exceptionally. It's a philosophy we call Beautiful Warmth.

Inspired by our backyard and driven by our purpose – to put a better fireplace at the heart of every home.

BEAUTIFUL WARMTH

We don't compromise performance with good looks, and neither should you. With Escea, you get the best of both worlds.

CRAFTED WITH CARE

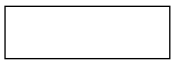

From concept to completion, our people take pride in every fireplace they have a hand in making.

FIREPLACE, ANY PLACE

Escea's flexible flues run up, down, and even sideways, so you can put your fireplace, any place.

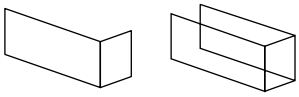

Fireplace, any place

Sleek, smart, and efficient, Escea Gas Fireplaces combine high-performance heat with contemporary design – and the freedom to integrate seamlessly into any space.

DS Series 6

Inbuilt | Frameless | Single or Double Sided

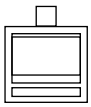

DN Series 12

Inbuilt | Frameless | Corner or Peninsula

DF Series 18

Insert | Retrofittable | Single Sided

DFS Series 24

Freestanding | Single Sided

DF700

DS Series

FRAMELESS LINEAR INBUILT FIREPLACE

Truly frameless, flexible, and famed for its limitless design freedom – bringing beautiful warmth and considered style to one side of the room, or two.

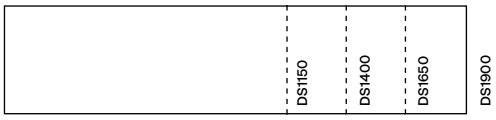

DS1150 Single Sided

DS1150 Double Sided

DS Series

SIZES

MODEL	DIMENSIONS (WxHxD)	VIEWABLE AREA (WxH)	EFFICIENCY*	MAX INPUT	HEAT OUTPUT
DS1150	1401 × 794 × 379 mm	1067 × 411 mm	★★★★½	34 MJ/hr	8.2 kW
DS1400	1693 × 794 × 379 mm	1359 × 411 mm	★★★★★	40 MJ/hr	9.7 kW
DS1650	1987 × 794 × 379 mm	1653 × 411 mm	★★★★★	44 MJ/hr	10.2 kW
DS1900	2278 × 876 × 379 mm	1947 × 411 mm	★★★½	49 MJ/hr	9.7 kW

**Efficiency may vary depending on flue or gas type.*

FEATURES

Single or Double Sided

Truly frameless and designed to disappear into the wall - choose single sided for a sleek, sophisticated feature, or double sided for a dramatic room divider.

Design Freedom

Flexible flues run up, down, or sideways so you can place it anywhere - and with a Zero Clearance rating, finish in almost any material, with no vents required.

High-Performance Heat

Powered Direct Vent flues and a room-sealed, glass-fronted design keep fumes and draughts out, and efficient heat in - for a drier, healthier, more comfortable home.

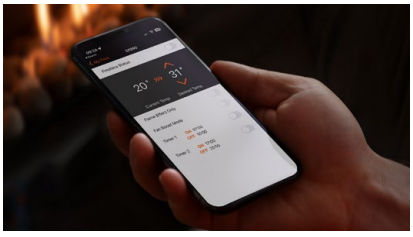

TV Right Above

A low 200mm TV clearance means your screen can sit closer to the flames than ever - combining warmth, style, and entertainment.

Natural Flames & Fuelbeds

Engineered for authenticity, with flames that look, move, and feel natural. Choose from a wide range of handcrafted fuelbeds - from logs to modern volcanic rock.

App & Smart Home Connectivity

WiFi-connected and controlled via the SmartHeat App or touchscreen remote - with optional smart home connectivity for hands-free voice control.

DS1650 Single Sided

FASCIA OPTIONS

Bevelled Lite

A subtle single bevelled edge to frame the fireplace.

Volcanic Black

Titanium Silver

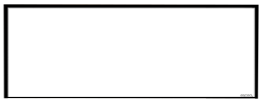

Linear Trim

An optional plasterboard finishing trim with clean lines keeps this frame minimal.

Volcanic Black

Frameless

Being frameless lets the wall itself be the work of art.

FASCIA SIZE (WxHxD)	
DS1150	1144 × 485 × 35 mm
DS1400	1434 × 485 × 35 mm
DS1650	1727 × 485 × 35 mm
DS1900	2017 × 485 × 35 mm

FASCIA SIZE (WxH)	
DS1150	1112 × 456 mm
DS1400	1402 × 456 mm
DS1650	1698 × 456 mm

SIZES

MODEL	DIMENSIONS (WxHxD)	VIEWABLE AREA (WxH)	EFFICIENCY*	MAX INPUT	HEAT OUTPUT
DF700	690 × 558 × 396 mm	620 × 464 mm	★★★½	23 MJ/hr	5.8 kW
DF960	940 × 558 × 400 mm	872 × 464 mm	★★★½	31 MJ/hr	6.9 kW
DF990	940 × 846 × 523 mm	872 × 680 mm	★★★★★	35 MJ/hr	8.6 kW

**Efficiency may vary depending on flue or gas type.*

FEATURES

Retrofit Ready

A modern, efficient upgrade for existing open or inbuilt fireplaces – retrofits effortlessly into brick chimneys or timber cavities.

Design Freedom

Flexible flues run up, down, or sideways so you can place it anywhere – and with a Zero Clearance rating, finish in almost any material, with no vents required.

Elevated Flames

An angled base creates exceptional flame depth and movement – or choose the DF990's elevated log burner for an even more lifelike, layered fire.

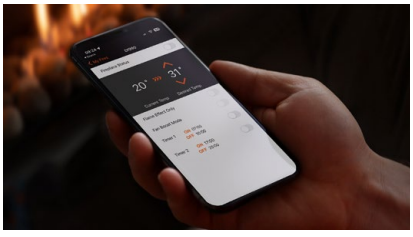

High-Performance Heat

Powered Direct Vent flues and a room-sealed, glass-fronted design keep fumes and draughts out, and efficient heat in – for a drier, healthier, more comfortable home.

TV Right Above

A low 200mm TV clearance means your screen can sit closer to the flames than ever – combining warmth, style, and entertainment.

App & Smart Home Connectivity

WiFi-connected and controlled via the SmartHeat App or touchscreen remote – with optional smart home connectivity for hands-free voice control.

MANTEL SURROUND

To complement the DF Series of insert fireplaces, Escea offers a mantel as an optional purchase.

Constructed from MDF, the mantel comes with a white undercoat finish to allow you to complete the look with your choice of paint colour. Infill panels (for when the cavity is larger than the frame) are also included.

DF700 Mantel

OUTER DIMENSIONS (WxHxD)
1470 × 1293 × 270 mm

DF960 & DF990 Mantel

OUTER DIMENSIONS (WxHxD)
1720 × 1293 × 270 mm

Features

Powered Direct Vent Flue System

Escea's Powered Direct Vent technology uses outside air for combustion in a completely sealed system - meaning no fumes enter the room, no warm air escapes, and no other appliances like extractor fans can affect performance.

Fan-assisted airflow means flues can run horizontally or vertically, up through a roof, out through an external wall, or even under a floor. This makes even the most complex flue runs possible, giving you the freedom to place your fireplace virtually anywhere in the home, without the need for a traditional chimney or cavity wall.

The result is a more efficient fire - one that heats the room, not the flue, keeping more warmth where it matters.

Flue runs from 4m to 8m, extending up to 20m. For larger commercial projects, runs of up to 40m are possible - speak to Escea's Architectural Advisory team for advice.

Available on all indoor gas fireplaces.

Through Roof **Through Wall** **Through Floor** **Between Floors**

Surround Choice

Zero Clearance Rating

Thanks to Escea's Zero Clearance rating, the fireplace can be installed flush against combustible materials – no additional clearances, no fireproof linings, and no compromise on design. This makes installation easier and offers greater design flexibility. Finish in almost any material – even timber, plasterboard, and custom joinery. And with a minimum TV clearance of just 200mm* above the glass, your screen and fireplace can sit closer than ever – perfect for integrating into a media wall.

**DF990 requires mantel or TV recessed.*

App & Smart Home Connectivity

Escea's SmartHeat App puts full control of your fireplace in your pocket - adjust temperature, flame settings, and schedule timers from your smartphone, wherever you are.

For smart home users, your fireplace can also connect to your home system – use voice commands via Alexa (or other smart home systems) to turn your fire on or off and set the temperature, hands-free.

The included touchscreen remote acts as an in-room thermostat, continuously monitoring and adjusting your fireplace to maintain your chosen temperature at maximum efficiency - so you're always walking into warmth, never wasting energy.

Whether you're on your commute or on the couch, the perfect temperature is only a swipe away.

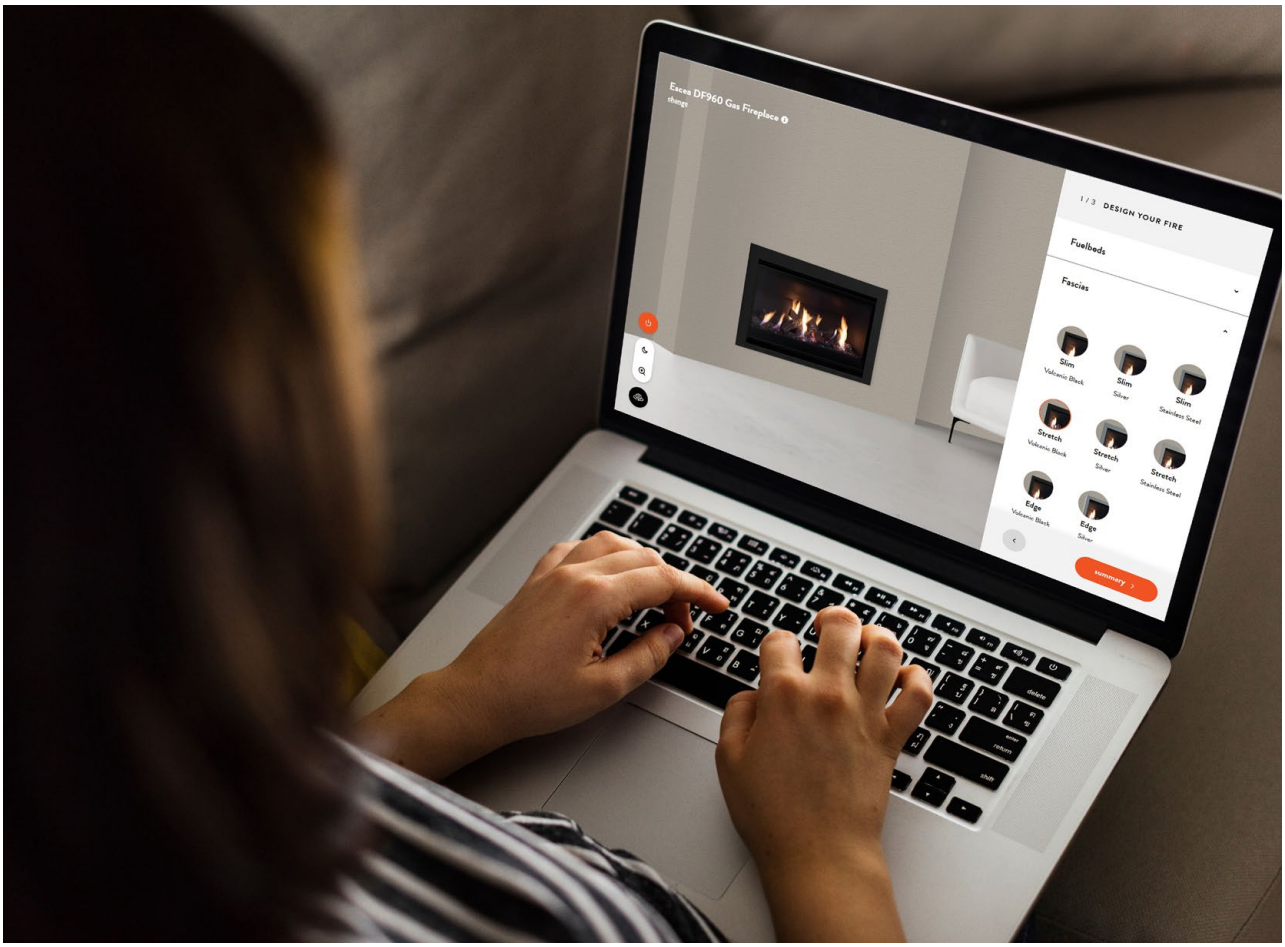

Available on all indoor gas fireplaces.

Design Your Fire

Escea's online visual design tool lets you mix and match different fireplaces, fascias, accessories, and wall combinations until you find a look you love.

escea.com/design-your-fire

Fuelbeds

Escea's selection of handcrafted fuelbeds lets you customise the look of your fireplace to suit any interior – from rustic and traditional to clean and contemporary.

Traditional Logs

Charred logs resting on glowing embers, for a traditional wood-fire look.

AVAILABLE FOR	
DS Series	DF Series
DN Series	DFS Series

Driftwood

Coastal-inspired branches that bring a relaxed, contemporary aesthetic.

AVAILABLE FOR
DS Series
DN Series

Splitwood

Freshly cut split logs layered over glowing embers, for a fuller, just-lit look.

AVAILABLE FOR	
DS Series	DF700 & DF960 Only
DN Series	DFS Series

AVAILABLE FOR
DS Series
DN Series

Woodland Selection

A rustic mix of branches and pinecones over shale, recreating the charm of a natural woodland campfire.

AVAILABLE FOR	
DS Series	DF700 & DF960 Only
DN Series	DFS Series

Volcanic Rock (Black)

Rich black coals that create a dramatic, bold foundation, for striking contrast against the flames.

AVAILABLE FOR	
DS Series	DF700 & DF960 Only
DN Series	DFS Series

Volcanic Rock (Natural)

Earthy, natural-toned coals that create a soft, organic foundation for the fire.

**Flame size and fuelbed placement will vary between fireplace models. Use our design your fire tool to view more accurate combinations (see page 33).*

Accessories Collection

Complete your fireplace with Escea's range of complementary surround accessories, designed to streamline design and installation.

Inbuilt

Choose from traditional mantels, in-wall display niches, and framing solutions for floating hearths.

Freestanding

Select from plinths and base options to create a complete, considered freestanding solution.
