
Lopi™
Premium Gas Inserts

Turn your old inefficient brick fireplace into a desirable high heat output gas fireplace

....with a Lopi gas insert featuring GREEN2SMART™ technology

Step 1. Start by measuring your existing brick fireplace opening including the height, width & depth
Step 2. Select the Lopi Insert that is most suited in size to your measurements
Step 3. Choose your size and style of panel (See page 6) to cover the remaining opening in your brickwork.
Step 4. Select your preferred face (See page 6)
Step 5. Take a few pictures both inside and outside of your chimney and head down to your local Lopi specialist to arrange installation or organise an inspection to check suitability.

Flexible pipes are installed in your chimney and connect to a chimney termination seen left.

See pages 5-7 for firebox dimensions & finishing options

Lopi DVS Ember-Glo™ GS2 - Profile Black Face & 1 Piece Panel

DVS™ EG GS2

Direct Vent Gas Fireplace Insert

Convert your existing fireplace into a beautiful heat source with the Lopi DVS GS2. This model features GreenSmart® 2 technology, Ember-Glo™ Accent Lighting, overhead accent lighting and Ember-Fyre® II theatre burner to maximise the flame height for a beautiful fuller fireplace.

The ceramic glass produces large amounts of radiant heat and the 6 speed fans blow hot convection air at a speed that's comfortable for you. This is an economical gas fireplace insert meaning you'll still enjoy a gorgeous fire but without loosing the heat out of your old brick chimney!

This model also has an optional Zero Clearance kit that enables it to be built into a timber frame in a new home or renovation - See the www.lopi.com.au for further information.

DVS/DVL HORIZONTAL TERMINATION NOW AVAILABLE

Lopi DVL Ember-Glo™ GS2 - Times Square Face & 1 Piece Panel

DVL™ EG GS2

Direct Vent Gas Fireplace Insert

GREEN2SMART™

The Lopi DVL GS2 with Ember-Glo™ and GreenSmart® 2 technology is the largest Lopi premium gas insert available. The new Ember-Fyre® II theatre style burner maximises the flame appearance whilst minimising gas consumption.
This fireplace features a large viewing area but compact dimensions and will turn your inefficient open fireplace into a convenient source of gas heat. With the combination of convective and radiant heat this gas insert is ideal for medium to large masonry fireplaces, perfect for zone heating in large rooms such as living rooms, great rooms and mid-sized living spaces.
This model can also be built into a timber frame with the additional purchase of a zero clearance kit.
See the www.lopi.com.au for further information.

Lopi Premium Gas Insert Features

GreenSmart® 2 Technology
Fully functioning GS2 technology allowing you to control every feature of your premium Lopi gas insert. See page 8 for details

Tall Dancing Flames
The premium Lopi gas inserts feature the Ember-Fyre® II theatre style burner for a fuller increased flame presence. Ember-Glo™ lighting emulates glowing embers at the floor of the fire and the flame is tiered up from there to fill the firebox with flame.

Accent Lighting
As well as Ember-Glo™ lighting there is an additional down light that highlights the detail in the log-set, setting the mood by adding perceived additional depth to the fire.

Ember-Glo™ Close-up

Clear Fire Safety Screen
Safety screens are included as standard and feature an extremely fine mesh called 'Clear-Fire' which is almost invisible!

Clear-Fyre Safety Screen

Multiple Log-Set & Face Options
Personalise your Lopi Premium Gas Insert by choosing from three highly detailed log-sets and seven face options to suit your decor.

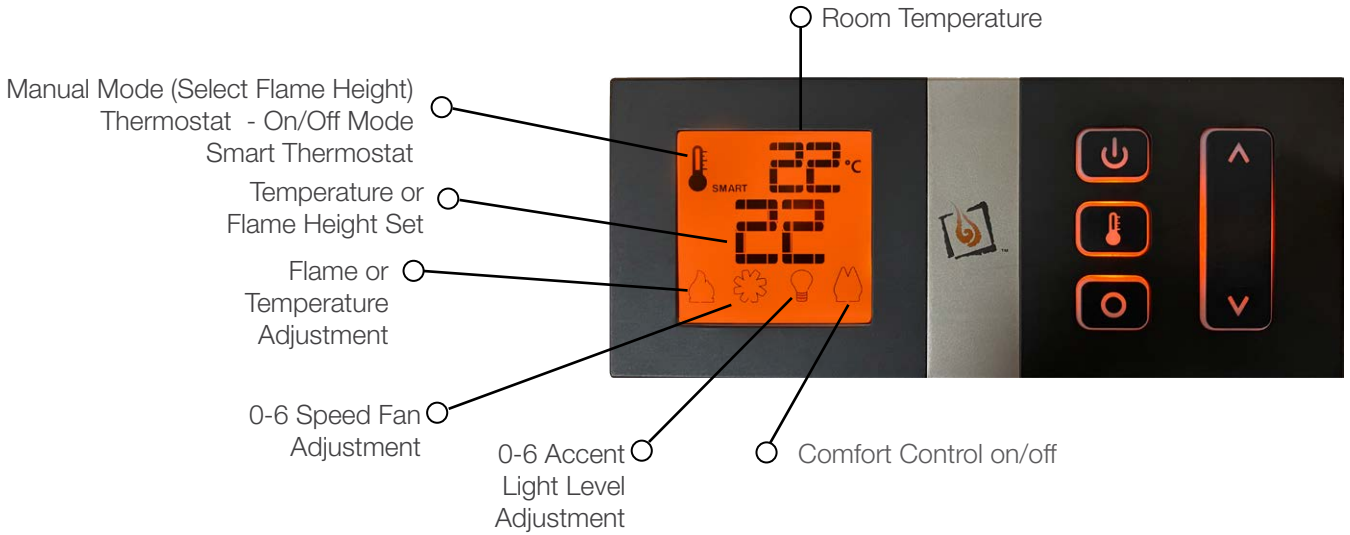

Quiet Blowers
Every premium Lopi fireplace features quiet 6 speed dual fans that are controlled by your GreenSmart® 2 remote control. The fans can even be turned off completely when relaxing in front of the TV, entertaining or reading providing complete control.

Ceramic Glass - High Heat Output
All Lopi gas inserts feature ceramic glass which increases the radiant heat produced from your fireplace. The combination of ceramic glass, gas input and powerful fans make these fireplaces unbeatable heaters when required.
Switch off the fans and benefit from the silent radiant heat.

GreenSmart® 2 Features

Exclusively Featuring GREEN2SMART™

Every Premium Lopi fireplace features GreenSmart® 2 Technology - the most advanced burner system available.
The GreenSmart® 2 system allows full control of your Premium Lopi fireplace by remote control.
You can select a thermostat mode, flame height, accent light level or choose between the six fan speeds or even switch off the fans completely.

GreenSmart 2™ Featuring

- **GreenSmart® Remote -** A remote control supplied as standard allowing you to control the GreenSmart 2™ features
- **GreenSmart® Pilot -** Both electronic (IPI) & continuous (CPI) pilot modes
- **Accent lighting -** Adding a warm glow to your fire for added atmosphere
- **Smart or On/Off Thermostat Modes -** An option that automatically adjusts flame height to a set temperature and switch on/off
- **6 Speed Blower** - For increased transfer of convection heat
