# Our Story

My wife Penny and I are very pleased to take on the challenge here at The Nantyffin. Our very close family play a very big part in our team.

Our background is in farming. We also have many years of experience with our catering businesses. As a family we have a lot to give here at The Nantyffin. With our Farming background we know how good food should be produced. Because of this we make sure the food on our menu is locally sourced, and we only use the freshest ingredients possible.

Our daughters have taken on a lot of the wedding side of the business and have a wealth of knowledge to offer

Megan has great knowledge in how to run the perfect day and ensure every part of your day is ran smoothly! Megan's attention to detail is impeccable. Has many years as a manager in catering, wedding and event planning. Megan has been based at the Nantyffin cider mill for over 9 years and knows everything there is to know about the grounds, what works best in different areas, she takes pride in what she does and ensures every single guest is leaving with a smile.

Chloe has worked across England and Wales from Manor House's to hotels in wedding management. Chloe has 10+ years of knowledge in the wedding industry, hotels and management. Working with our couples from the initial enquiry right up to the wedding day. She loves the planning stage and loves to bring couples' ideas to life on the big day.

Two sisters achieving great things!
