iCM offers a quantitative asset management solution for the sophisticated financial advisor.

Our objective is to deliver an investment solution, rooted in our valuation-centric process, that is both understandable and fundamentally sound, bringing clarity to a world that is driven by clichés and half-truths.

Tactical Closed End Strategies

Portfolios that tactically allocate assets to CEFs, ETFs, & mutual funds in order to capture inefficiencies in asset & CEF markets, while providing an attractive level of income. Tactical Income Closed End (**TICE**) seeks to own attractively discounted CEFs, while Income Opportunities (**Inc Opps**) and TICE Alpha Opportunities (**TAO**) will combine CEFs with high conviction assets.
