

My ObGyn

A division of OBGA

WELCOME

Welcome to My ObGyn! Thank you for choosing us for your prenatal care. Our mission is to provide experienced, dignified and personalized medical care for women. We are a small practice of three doctors. Dr. Cat Coffman and Dr. Kevin Tool provide full spectrum Obstetric care and delivery and Gynecologic care. Since we are a small clinic, we encourage you to see both Dr. Coffman and Dr. Tool during your prenatal care. We cannot guarantee which doctor will be at your delivery, so we encourage you to get to know both of them. Dr. Karen Hayes is semi-retired and is providing outpatient Ob and Gyn care but is not doing surgery or deliveries. Our doctors have over 60 years of combined experience. We respect each patient as an individual and will always provide evidence-based care personalized to your needs.
