## Snow Season

Owners:

There have been several inquiries regarding the snow removal at Winslow Ridge:

- Snow removal will begin **AFTER** the snow exceeds 2" and the snow stops.
- Snow will be removed from the parking lots and sidewalks up to the stoops.
- Ice melt will be spread once the snow has been removed on all roads in Winslow Ridge.
- The snow will be removed from all stoops, steps and porches (ice melt) when finished with the parking lots and sidewalks. Owners may remove snow on their own from stoops, steps, porches and put additional ice melt down.
- Snow will be **removed** from parking spaces **ONLY if cars are moved**. The snow must exceed 4-6 inches before parking spaces are cleared off. This is at the discretion of the snow removal company. If the snow removal company is not able to get their equipment into spaces due to vehicles or objects in the owner & other parking spaces in the area, they will not remove snow in that area. The snow removal company will go back into the complex checking the parking spaces periodically.

Winslow Ridge does not have control of when the snow removal company comes to remove snow. Please be patient, it will be done. If you have any concerns feel free to contact Sharon at [skirtland@parkermgt.com](mailto:skirtland@parkermgt.com).
