X-Ray
Buyer's Guide

4 Configurations

Ceiling-Mounted
Floor-Mounted
U-Arm
Portable

Which X-Ray Configuration Fits Your Room?

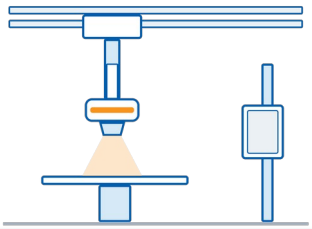

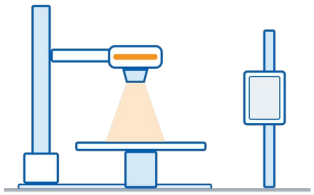

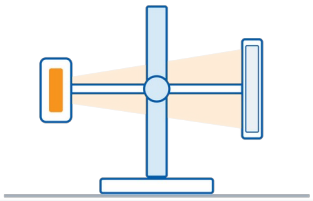

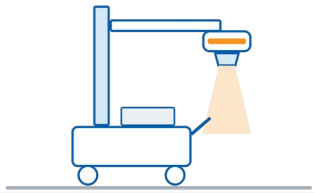

Pick the configuration first. Then the brand.

The right system starts with your room, your patient volume, and your budget, not a brand name. Use this guide to narrow things down. Then we'll help you compare models that fit.

Four configurations. Different rooms, volumes, and workflows.

Four Configurations at a Glance

Ceiling-Mounted	Floor-Mounted	U-Arm	Portable / Mobile
			
Best for Busy departments that need flexible positioning	**Best for** General radiography in a standard room	**Best for** Smaller rooms and focused workflows	**Best for** Bedside, multiple locations, or no dedicated room
Room Dedicated room with ceiling structure that can support the system	**Room** Dedicated room; no ceiling support needed	**Room** Compact dedicated room	**Room** Moves room to room
Patient volume Moderate to high	**Patient volume** Low to moderate	**Patient volume** Low to moderate	**Patient volume** Varies by use
Common settings Hospitals, imaging centers, emergency departments	**Common settings** Clinics, rural and critical access hospitals, urgent care	**Common settings** Orthopedic and physician offices, urgent care, podiatry	**Common settings** Hospital floors, emergency, long-term care, veterinary
Planning watch-outs Ceiling structure, room height, installation planning	**Planning watch-outs** Floor space and room layout	**Planning watch-outs** Patient positioning range for your exam mix	**Planning watch-outs** Detector choice, storage, charging

Funding path for every configuration

Capital budget, grant, or public purchase. Ask for a Grant-Ready Quote Package: your quote and supplier paperwork in one file. Details on the back.

Questions that narrow it down fast: How many X-ray exams do you do on a typical day? Will patients come to the room, or does the system go to them? Is this a new room, a replacement, or an upgrade from CR or film? Turn the page for the full list.

Not sure which configuration fits?

Send us your room size and a rough exam count. We'll help you narrow it down and recommend systems that fit.

pulseISM
PASSIONATE ABOUT IMAGING

certified WBENC WOMEN'S BUSINESS ENTERPRISE

SBA Certified WOSB & EDWOSB

Right-sized imaging for your room, your volume, and your budget.
Pulse ISM is a woman-owned diagnostic imaging partner that helps hospitals and clinics choose, fund, and support the right imaging equipment, with a focus on musculoskeletal imaging.

Plan Your Next Step

- Choose the system
- Line up the paperwork
- Get to approval

Narrow It Down. Then Plan the Approval.

Picking the system is only half the job.

A few quick questions point most buyers to the right configuration. Then we help you line up the paperwork your purchasing office or grant manager will ask for.

From the right room to an approved purchase.

Questions That Narrow It Down Fast

1. How many X-ray exams do you do on a typical day?
2. Will patients come to the room, or does the system need to go to them?
3. Is this a new room, a replacement, or an upgrade from CR or film?
4. What exams do you do most: extremities, spine, chest, or standing/weight-bearing?
5. **Who has to approve the purchase, and how is it being paid for?**

How We Help You Choose

Share your room
Room size, exam count, and how you'll pay for it. A photo or drawing helps.

We narrow the options
We point you to the configurations that fit your room, your volume, and your budget.

Request a quote
Tell us your room size, exam volume and budget, and we'll quote the models that fit.

Buying with Grant, Public, or Health-System Funds?

Your purchasing office or grant manager will need paperwork from the supplier. We put it together in one file: our Grant-Ready Quote Package.

- **Itemized quote**
- **Certificates**
- **W-9**
- **SAM registration**
- **Capability statement**

Pulse ISM is nationally certified as a WBE, WOSB, and EDWOSB.

That may help your team meet small and women-owned business goals. Check with your purchasing office to see which certifications they recognize.

We stay with you from the first call through installation, however long approvals and funding take.

Request a Quote

Send us your room size and a rough exam count, and we'll help you find the models that fit.
