

## Can You Invest 2+ Hours Weekly to Step Into a Life-Changing Moment?

Every day, women, men, and families walk through our doors at The Next STEPP Center at a turning point in their lives. In the middle of uncertainty, fear, and big decisions, they encounter compassion, truth, and the love of Christ in action.

God has entrusted this ministry with sacred moments — opportunities to protect life, strengthen families, and speak hope where it is needed most. When a volunteer is present, a mother is encouraged, a father is supported, and a child's future can be changed.

Serving here is more than filling a role. It is stepping into God's work of restoration — offering practical care, a listening ear, gentle guidance, and Christ-centered love in a moment that matters for generations.

Below are the opportunities to be present in these life-shaping encounters across our campus.

## A Calling We Answer Together

The mission of life is both deeply spiritual and beautifully practical. As the Body of Christ, we have the privilege of showing up with prayer, compassion, and willing hands.

Whether serving weekly or offering a few hours a month, every role helps create a place where people feel seen, supported, and reminded that they are not alone. From welcoming guests, to walking alongside them in conversation, to helping provide material support with dignity — each act becomes a tangible expression of the love of Jesus.

## Will You Step Into the Story?

When believers say “yes,” lives are strengthened, families are encouraged, and hope becomes real. We invite you and your church family to prayerfully consider how you might take part in this mission of life and restoration.
