Announcements Before Public Comment

Trustee Acker-Stated Young's Landscaping mowed the cemetery on Memorial Day. Trustee Acker contacted Young's and they agreed not to mow on any holiday going forward.

Trustee Heeter-Stated the Board will listen to residents' concerns but will not give immediate responses so they can review issues thoroughly. Decorum rule: disruptions get a warning; continued disruption can lead to removal from the meeting and possibly the premises.

Public Comments

John Yancik-Speaking on behalf of the Zoning Board he requests the trustees enact a 1-year moratorium on data centers to allow time to get legal verbiage reviewed/approved by the Montgomery County Prosecutor that would potentially regulate or slow data center development. Main concerns from residents are water usage, public health, potential loss of surrounding property values, electrical infrastructure, aging lines, need for new capacity, and financial limits of the township to support this type of development. The Zoning Commission Board is considering placing data centers in Section 45 and addressing other zoning issues like parcels with more dwelling units than allowed and offers to address any additional issues trustees identify in work sessions.

Kelly Price-Reports her kids were in an accident on Air Hill Rd. Her concern is Air Hill Rd is too narrow with blind hills. Her suggestion is with large farm equipment they might need spotters, or the township might need to widen the road in dangerous areas. She does not propose a specific solution left to the trustees.

Debbie Brumback-Represents Admirable Partners. Announces they are hosting a Fishing Derby on June 20, 2026, from 10:00-1:00pm registration begins at 9:30am at Sycamore State Park on Providence Rd. Two bicycles and a fishing pole will be given away in a free raffle. Kids will receive hot dogs, chips, water, and worms. The ponds will be stocked by the park right before the event. A naturalist from Hueston Woods will bring birds (and possibly animals).

Tyler O'Diam- States he wants to build an agricultural-use barn on agricultural property. He went to township zoning board for a variance, believing planned barn violates current code (front yard/accessory building placement). During the case opening a board member stated that Ohio Revised Code says agricultural-use structures are not subject to township zoning restrictions in the same way as accessory buildings. Tyler's key legal points are Code sections he's been cited under applying to residential zoning and accessory buildings, not agricultural structures. ORC 303.21 – local governments cannot prohibit or require zoning permits for buildings used for agricultural purposes. ORC 3781 – defines accessory structures; explains why agricultural structures don't fit that category. The case was tabled, with no discussion or decision on the variance, no clear path, timeline, or communication plan from the zoning board. Delays may cause him monetary issues (materials purchased, deposits, timeline). Mr. O'Diam raised concerns about fairness a zoning board member told him, "I don't believe you'll use this for agricultural purposes", despite his Schedule F and notarized documentation. The same person said off the record they would not grant variance if the case went forward that day, without hearing evidence. He requests the trustees to expedite the process to ensure transparency and fair treatment and clarify how township will reconcile zoning rules with ORC protections for agricultural structures and to provide contact number for follow-up.

Dale Seim-Confirms data center interest is already present he states inquiries made, including an offer of \$80,000/acre on a 6-acre parcel where buyer said they only need 3 acres and supports a moratorium on data centers (echoes John Yancik). He emphasizes Ohio law supersedes township zoning books regarding agriculture and some other issues. Zoning board members take an oath to uphold Ohio law, not just the local zoning book. The township cannot zone agriculture if it is truly used for agriculture. Mr. Seim states that Mr. O'Diam's \$500 filing fee be returned for the variance since the township shouldn't have required it under the ORC. Notes board members said they "didn't know that was the law" and stresses that ignorance is no excuse. He also follows up on lot split issues from a prior meeting and lack of legal feedback. Trustee Warner offers to talk after the meeting.

Fiscal Officer-Amy Hoover. Public records: none outstanding. Audit: extended again to June 30; waiting on the state nothing more to provide currently.

Roads & Cemeteries-Bob Houseman- He thanks Dale and Missy Mears for placing flags for Memorial Day at cemeteries. Thanked Al for help with concrete, footers, foundations. On May 27 he closed Amity Road between here and Crawford Toms and Air Hill between Johnsville Brookville Rd and Wolf Creek due to heavy water and debris he emphasizes that when road closed signs are posted, the road is truly closed, and people should not drive through. Cemetery work: Foundations completed at Pleasant Hill. Recent burials at Pymont and Pleasant Hill. One deed transfer and another burial scheduled.

Zoning Administrator Report-Missi Stewart Mackie- Board of Zoning Appeals heard two cases one was granted, one was tabled pending legal review. Zoning Commission board will hold a June meeting to address data centers (hearing earlier references) monitor Ohio court decisions and potentially regulate size and other aspects of data centers. Permits: 3 accessory buildings and 1 pool permit issued. Several other potential projects in early inquiry stage. Two courtesy letters sent: One resident complied quickly. The other has a few days left to comply.

Unfinished Business

Trustee Warner, Presents a contract with Rumpke and a resolution for trash and recycling services. Contract term: October 1, 2026 – September 30, 2027. Rates: remain at \$75 per quarter; no increase for that contract year. Trustee Heeter moves to accept Resolution 26-31 to approve contract between Western Regional Council of Governments and Rumpke Waste and Recycling and Trustee Warner 2nd.

Trustee Acker-Follow-up from last meeting on the spill in April: 28% liquid nitrogen. The entities involved were Montgomery County Soil & Water, Ohio EPA (Contact: Tony Carmichael) Ohio Department of Agriculture, Ohio Department of Natural Resources (ODNR) took water samples and tested. Agencies knew about and handled the situation and water was tested, and they were satisfied with results. There was a fish kill, but Soil & Water said it was not "massive". Confusion over reporting it was logged under Bull Run Rd, not Perry Township, which caused difficulty when Trustee Acker first called. Trustee Acker does not know why the agencies did not issue public statements. Residents can contact Tony Carmichael directly for test data; Acker holds his contact info. Trustee Acker- Steck Road / OPWC Payment- follow-up to Rhonda Behnken's earlier question about Steck Rd costs. Trustee Acker met with Stacy Valance, OPWC liaison. The township's obligation is about \$15,000, invoices not yet sent.

Spectrum fiber optics project: Sam Bain reports they expect to be working in the township for another 30 days, weather permitting.

New Business

Fiscal Officer Hoover- states money was received from county and tax collection fees were not previously appropriated. She needs to increase appropriations by \$30.80 in Fund 2041. Trustee Heeter motioned to accept Resolution 23-30 authorizing the increase in appropriations for fund 2041 in the amount of \$30.80 to pay tax collection fees. Trustee Acker 2nd.

Trustee Acker-Trailer Purchase-Amendment of Trailer, the original replacement trailer (under Resolution 26-29) cannot be built due to axles not available. Proposal is to cancel/modify that plan and purchase a different trailer 14,000lb tilt trailer. Use insurance replacement funds and additional township funds, total cost not to exceed \$8,999. Net township funds out-of-pocket estimated less than \$5,000. Benefits: Easier and safer loading, less wear on cemetery roads. More

economical to move equipment. Plan to sell the existing large trailer in the future to offset cost (comparable sales \$3,500–\$6,500+). Questions/clarifications insurance received approx. \$5,280–\$5,600; new trailer \$8,999 (about \$4,000 difference). Contractor is the same company, trailer already built and available.

Trustee Heeter motions to accept Resolution 26-32, Trustee Acker 2nd.

Trustee Acker and Bob Houseman stated there was storm damage in March to the north slope of the maintenance building roof. Insurance claim estimate from OTARMA is \$7,027. The Township deductible is \$5,000 we received several bids; lowest acceptable for north slope shingle replacement is Spark Roofing LLC – \$6,750. Work scope is to remove damaged shingles on north slope and replace plywood if needed. Part of this slope covers the Sheriff's secure area, increasing urgency to avoid leaks and further damage. Trustees discuss using insurance to pay the \$5,000 deductible and letting the claim cover the rest vs. just paying outright. A motion made by Trustee Acker, as read by Heeter to approve and accept the estimate from Spark Roofing LLC for the roofing work described; authorize execution of all necessary documents to complete the work as outlined and in line with the claims adjuster's scope. 2nd by Trustee Heeter.
