

JOURNEY LIGHTS 12

GTZ6128BEVCF

SMART AUTO SMART FUTURE

01.

PERFECT DESIGN AND EXCELLENT QUALITY
With the world's leading full-body technology, integrated advanced finite element analysis, to achieve the perfect combination of high strength and lightweight.

02.

The car adopts the soft interior to protect the occupants, and the air-conditioned seats and enclosed luggage racks create a comfortable ride for passengers.
Independent toilets, water dispensers, air refrigerators, high-definition audio-visual systems and other services for passengers to create a happy (all) safe trip.

03.

Engineered driving areas such as large-field front windshield and adjustable steering wheels create a convenient and comfortable driving experience for drivers.

VEHICLE PARAMETER DETAILS TABLE

MODEL	GTZ6128BEVCF-JOURNEY LIGHTS 12
MODEL PARAMETERS	
Structure :	Concave floor,unitized body construction, right rudder
Size (mm)	11,930×2,500×3,500
Front suspension/Car wheelbase/rear suspension (mm)	2,500/6,000/3,450
Maximum load (kg):	18,000
The climbing slope(%):	≥20
Approach/Departure angle (°)	8/8
Minimum ground clearance (mm)	≥200
Suitable for weather and environment	-10~45℃
Rated capacity (people/ seats)	65+1 (3+2, including drivers)
Suspension system	Air suspension
AUTOMOBILE DYNAMIC SYSTEM	
Power battery system	Lithium iron phosphate,373.4kWh
Motor system	Permanent magnet synchronous
	Rated/Peak power:195/350kW
Driving system	Direct-Driven
