Enhance Your
Reporting Workflow

cvi**42** offers customizable reporting for cardiac MR and CT evaluation.
Build the report you need for research and daily clinical practice.

Standard Reporting Features - Included with all cvi42 licenses

○ Simple Clinical and Scientific data reporting
○ Customizable template builder
○ Infographics, diagrams, screenshots and measurements
○ Export PDF, text, DICOM secondary capture and DICOM encapsulated pdf
○ User configurable normal values and automatic classification
○ Updated normal values sourced from the Healthy Hearts Consortium*
○ DICOM SR (Structured Reporting) - export to any configured DICOM node (e.g., third-party reporting systems)

Direct PowerScribe One Integration**

○ Send report data directly to PowerScribe One to improve workflow and avoid transcription errors
○ Populate your templates within PowerScribe One to customize your report content and format

Upgrade to
cvi42 | Report
