Hi Allyson,

I hope you are staying warm ?!

I'm ready for winter to be over anytime now. I wanted to ask you about a proposal that we briefly discussed last year. The potential for selling ad space on the boards at the arena. I'm not sure of the logistics as far as getting approval for a project like this. It would be a sort of partnership between us. I would handle the customer communication and all the planning. The full payment would be issued to the town and then we would then invoice you for the logo production and installation. I would be promoting that proceeds would be given to the town to put towards funding local sports and leisure activities. Unless there is somewhere else you would like the funds to be allocated ? We would not be able to install any of this until the weather warms up in the spring but I thought if I start now with getting all the details worked out between us I can hopefully start to promote the project soon.

I would like to get our train logo up there first, like our home brand so to speak, maybe right behind the net at the far end. I was thinking we could do just a digital mock up of this to help give people a size reference and get a look at the facility. I would send this out with a promotional letter to inform businesses of the opportunity. There will be several details to sort out but I just wanted to reach out to see what you think and what you may need from me in order to hopefully proceed with this project.

Thanks, I hope you have a great day !

Oh and as soon as it warms up a little more I can come and put up your new hours sticker as well :)

Sincerely,

Lily Wilson
