

Energy performance certificate (EPC)

Upper Flat  
9 Bryn Road  
Brynmill  
SWANSEA  
SA2 0AR

Energy rating

C

Valid until:

5 August 2030

Certificate number:

8830-7323-7880-6175-3226

Property type

Top-floor maisonette

Total floor area

138 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property’s energy rating is C. It has the potential to be A.

[See how to improve this property’s energy efficiency.](#)

The graph shows this property’s current and potential energy rating.

**Properties get a rating from A (best) to G (worst) and a score.** The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D  
the average energy score is 60

| Score | Energy rating | Current | Potential |
|-------|---------------|---------|-----------|
| 92+   | A             |         | 93 A      |
| 81-91 | B             |         |           |
| 69-80 | C             | 79 C    |           |
| 55-68 | D             |         |           |
| 39-54 | E             |         |           |
| 21-38 | F             |         |           |
| 1-20  | G             |         |           |

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature              | Description                                             | Rating    |
|----------------------|---------------------------------------------------------|-----------|
| Wall                 | Solid brick, as built, no insulation (assumed)          | Poor      |
| Wall                 | Granite or whinstone, as built, no insulation (assumed) | Poor      |
| Roof                 | Pitched, 200 mm loft insulation                         | Good      |
| Roof                 | Flat, no insulation (assumed)                           | Very poor |
| Window               | Fully double glazed                                     | Average   |
| Main heating         | Boiler and radiators, mains gas                         | Good      |
| Main heating control | Programmer, room thermostat and TRVs                    | Good      |
| Hot water            | From main system                                        | Good      |
| Lighting             | Low energy lighting in all fixed outlets                | Very good |
| Floor                | (another dwelling below)                                | N/A       |
| Secondary heating    | None                                                    | N/A       |

### Low and zero carbon energy sources

Low and zero carbon energy sources release very little or no CO<sub>2</sub>. Installing these sources may help reduce energy bills as well as cutting carbon emissions. The following low or zero carbon energy sources are installed in this property:

- Solar photovoltaics

### Primary energy use

The primary energy use for this property per year is 129 kilowatt hours per square metre (kWh/m<sup>2</sup>).

### Additional information

Additional information about this property:

- PVs or wind turbine present on the property (England, Wales or Scotland)  
The assessment does not include any feed-in tariffs that may be applicable to this property.
- Stone walls present, not insulated

## How this affects your energy bills

An average household would need to spend **£1,089 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £426 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2020** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

---

## Heating this property

Estimated energy needed in this property is:

- 17,428 kWh per year for heating
  - 2,302 kWh per year for hot water
-

## Impact on the environment

This property's environmental impact rating is C. It has the potential to be B.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

## Carbon emissions

An average household produces 6 tonnes of CO2

This property produces 3.2 tonnes of CO2

This property's potential production 0.9 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

## Steps you could take to save energy

| Step                                       | Typical installation cost | Typical yearly saving |
|--------------------------------------------|---------------------------|-----------------------|
| 1. Flat roof or sloping ceiling insulation | £850 - £1,500             | £96                   |
| 2. Internal wall insulation                | £4,000 - £14,000          | £330                  |

## Who to contact about this certificate

### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

|                 |                                                                                        |
|-----------------|----------------------------------------------------------------------------------------|
| Assessor's name | Kevin Collins                                                                          |
| Telephone       | 07484828843                                                                            |
| Email           | <a href="mailto:kevin.collins@krcsurveyors.co.uk">kevin.collins@krcsurveyors.co.uk</a> |

### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

|                      |                                                                        |
