Service and Compassion from a Family that Genuinely Cares

General Price List

Effective Date of Pricing: June 24, 2023

Last Price Increase: December 18, 2020

Service and Merchandise Prices are subject to change without notice.

Family-owned and operated since 1986. We feel it is an honor to help the families we serve, carry out their Loved One's Funeral Rite through Burial, Cremation, Anatomical Donation, as well as Transportation to other States and Countries. We genuinely believe practicing spiritual principles in our service and providing exceptional care to the family and the deceased, gives families a sense of peace and comfort during the most difficult times of life. We make ourselves wholly available to answer any questions and assist at any hour of day or night.

Our General Price List consists of all the **Services** and **Merchandise** we offer to the families we serve. Due to varying selections made by each individual family, we cannot always predict the cost of **Cash Advanced Items** until an inquiry is made with a particular contractor or vendor.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. **However, any funeral arrangements you select will include a charge for our basic services and overhead.** If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

Professional Services

Funeral Director and Staff \$1,700

This fee is for our basic services and overhead is always added to the total cost of the funeral arrangements you select. This fee may be reduced at a proportionate rate with Direct Cremation, Immediate/Green Burial, and Forwarding or Receiving Remains Services. Our fee for the Professional Services of Funeral Director and Staff includes, but is not limited to staff's response to initial request for services; arrangement conference with family or responsible party; arrangement of funeral or other methods of disposition; preparing, filing and obtaining necessary authorizations and permits; recording, filing and obtaining the Death Certificate and Certified Copies with the appropriate vital statistics offices; preparation and placement of obituary notices; coordination with all contracted parties who possess an active role in portions of the arranged services (e.g., cemetery, crematory, police escorts, etc.). Also included in this charge are overhead expenses relative to our operation (e.g., insurance, building maintenance and utility expenses, clerical and administrative costs as well as maintenance of equipment and inventory).

Forwarding Remains \$1,500

Forwarding Remains fee includes our Professional Services of Funeral Director and Staff at a reduced proportionate rate, Removal of the Deceased from the place of death, Embalming, obtaining necessary authorizations, permits and death certificates, and transportation to a local airport or rail station. This fee does not include Common Carrier Fees nor a required Shipping Container.

Receiving Remains \$1,500

Receiving Remains fee includes our Professional Services of Funeral Director and Staff at a reduced proportionate rate; Removal of the Deceased from another establishment, local airport, or rail station; along with the logistics and implementation of carrying out an Immediate Burial. A Funeral Service and/or Visitation can be added for additional expense. Due to varying rates, this fee does not include any expenses incurred by a cemetery nor Opening/Closing of the Grave fees.

Direct Cremation \$1,500

Direct Cremation is an all-inclusive service for carrying out a simple cremation. The family may provide any suitable container, which complies with the crematorium's minimum requirement, or **we will provide an Alternative Container at No Charge.** Alternative containers encase the body and are made of incendiary materials like fiberboard or composition materials (with or without an outside covering). The containers we provide are a Fiberboard Container or any Casket we offer made primarily of incendiary materials. Cremation is considered Final Disposition; therefore, the Next of Kin will then need to choose whether to Entomb, Inurn, Inter, Scatter, or simply keep the Cremated Remains as a designated Final Resting Place. We can assist with these options, as well as many others (e.g., Blown Glass, Diamonds, Living Reefs, etc.) by coordinating, scheduling, and/or delivery of the Remains. **If the deceased and/or their spouse are Active Military or Honorably Discharged Veterans, then we will deliver or transport the Remains to a State or National Veteran's Cemetery at NO CHARGE.**

Immediate and/or Green Burial \$3,000

Immediate and/or Green Burial is the minimum requirement for carrying out a Funeral Rite with dignity and compassion. Due to the growing demand for simplicity and natural burials, Elgin Funeral Home has tailored an option to suit those needs. This fee includes our Professional Services of Funeral Director and Staff at a reduced proportionate rate; Removal of the Deceased from the place of death; temporary shelter of unembalmed remains up to 48 hours; obtaining necessary authorizations, permits, and death certificates; Bathing/Disinfecting Unembalmed Remains; and use of facilities and staff for a Graveside Service. The family may provide any suitable container to serve for burial or purchase one through the Funeral Home. Due to varying rates, this fee does not include any expenses incurred by a cemetery nor Opening/Closing of the Grave.

Care and Restoration of the Deceased

Embalming \$900

Except in certain cases, embalming is not a legal requirement. However, embalming may be necessary, if you select certain funeral arrangements, such as any services with an open casket viewing or transportation of the deceased outside the State of Texas by a Common Carrier. If you do not desire embalming for your loved one, then you have the right to choose several arrangements that do not require you to pay for it, such as Direct Cremation or Immediate/Green Burial. Embalming is an arterial and topical process, utilizing humectants, emollients, and preservative solutions, which provides sanitation, temporary preservation, and more significantly restores a natural appearance and countenance, for private and/or public viewing.
