

Elevate your restaurant with Clover's Restaurant Growth Software Plan

Transform your restaurant operations with Clover's integrated software solution designed to streamline operations, enhance guest experiences, boost customer loyalty, and boost revenue through insights.

Run operations like clockwork — from **managing multiple menus** and **orders** to **scheduling staff**

Deliver delightful experiences across channels — **from online** to **dine-in** to **counter-service** within a **single platform**

Use built-in loyalty tools that convert first-time visitors into regulars who spend more and return often

Solutions designed to meet your restaurant's needs

Quick-service restaurant

Move lines faster, speed up transactions and drive repeat visits with built-in loyalty — so you can deliver quick, satisfying service every shift

Full-service restaurant

Control your entire dining operations — synchronizing staff, course timing, and payments to enhance service quality while maximizing table turns

Order Fulfillment

A robust menu of restaurant solutions

Features	Benefits
Item & Order Management	Instantly remove sold-out or unavailable items from your menu to maintain an up-to-date selection and uphold the customer experience
Menu Management	Daypart menus on your POS automatically display the right options for breakfast, lunch, dinner, simplifying ordering for customers and reducing mistakes
Online Ordering	Boost revenue and reach more customers by integrating delivery services like DoorDash and Uber Eats
Customer Engagement	70% of customers prefer to shop at places with a rewarding loyalty program. Take advantage and start your own with Clover’s engagement programs
Employee Management	Assign roles and permissions to make sure everyone has the right access for their job
Table Management	Easily manage seating arrangements to minimize wait times and improve the guest experience
Business Insights	Manage and access reports and data to get insights on patterns and trends, all from a single dashboard
Support	Reach customer support, available 24/7/365, to tackle any of your questions and concerns
