

Darlene Baldachino

ARTIST'S STATEMENT

I wanted to participate in this exhibit for several reasons. I have family members who have vision loss and the impact of this exhibit moved me. It pushed my boundaries as an artist to go beyond what is seen. While creating this piece, I utilized my other senses to not only see my work, but to feel my work. The textures on this canvas tell a story, we are all rooted in love, it's the shape of connection.
