

Merry May

STATEMENT

As soon as I saw the title for this exhibit I thought, Fidget Quilt! A Fidget Quilt is an interactive piece that includes various textures and objects for people to “fidget” with. I have made quite a few of these quilts that have been donated to various places with dementia patients, as well as for children with learning disabilities. I always try to include surprise elements in these pieces that will make people smile. I hope you will enjoy handling this piece and that it will bring you joy.
