

# Rooma Sehar Sabir

## BIO

Rooma Sehar Sabir is a New Jersey-based contemporary abstract artist whose work explores color, movement, texture, layering, and mark-making. Working primarily with acrylics, fluid paints, charcoal, and oil pastels, she creates intuitive compositions that evolve through experimentation, spontaneity, and process.

Inspired by Abstract Expressionism, Rooma continuously explores the relationship between color, energy, and spatial balance through layered surfaces, organic forms, and dynamic compositions. Her artistic practice embraces both bold and subtle visual languages, allowing each painting to develop its own character and direction.

Since beginning her artistic journey in 2018, Rooma has exhibited her work in numerous exhibitions across New Jersey and New York City, including solo and invite-only exhibitions. She has also completed large-scale corporate projects,

expanding her work into professional and public spaces.
