

RUSH WISCONSIN SOCCER CLUB

PROGRESSIVE. AMBITIOUS. COMPREHENSIVE.

OUR CLUB

Rush Wisconsin has more than 400 players at the U8 to U18 levels. It is the only soccer program in Wisconsin that provides professional coaching and competitive opportunities through an extensive national and international club affiliation. Rush educates and empowers youth across south central Wisconsin by providing:

- A professionally accredited coaching staff that focuses on long-term player development and personal growth.
- A top college placement program that assists players in realizing their goals of playing at the higher level.
- A progressive play and team development curriculum based on the U.S. Soccer Long Term Athlete Development Model.
- A grass-only, lighted, training facility conveniently located between Middleton and Waunakee.

WHY SPONSOR US?

Rush Wisconsin employs a holistic approach to player development, focusing not only on physical skills, but successful team building, accountability, social awareness, respect, and mental health. Uniting with Rush through sponsorship provides direct support to young athletes through our enrichment programs and creates opportunities for participation through need-based scholarships. Our club consists of diverse players and families from 31 local communities, and our 2023 tryouts drew participants from 53 cities and seven states. Rush competes locally, regionally, nationally, and internationally.

CONTACT US

SCHOLARSHIPS

Rush Wisconsin provides between \$17,000 - \$30,000 in scholarships annually, so that everyone who wants to play, can play.

By sponsoring our organization, your tax-deductible donation will help us continue to serve players and their families from all socio-economic backgrounds.

HOLISTIC HEALTH

Over 75% of young athletes quit sports before the age of 14. Beyond our focus on physical and social skills, Rush Wisconsin is one of the few youth sports organizations that provides mental health workshops for teams and individuals to help ensure that players' overall experience with athletics remains positive and fulfilling. With your help, you will be investing not just in the wellbeing of our young athletes, but also contributing to the broader health and unity of local communities.

FACILITIES

Our current training facility consists of four grass fields that we utilize in the spring, summer, and fall months. We have room, however, to grow to nearly double this size. By contributing to our club, you will help us achieve key expansion goals, provide year-round play on artificial turf, and improve our indoor structure to better accommodate Rush training programs and guests.
