ABOUT

Welcome to Women's Elite Rugby (WER), the first professional women's 15s rugby league in the US. Whether you're a first-time fan or a rugby faithful, there's something for everyone here with six teams across the country: Bay Breakers, Boston Banshees, Chicago Tempest, Denver Onyx, New York Exiles, and TC Gemini.

Season 2 returned with fresh new talent, first-class competition, and even more energy. It was a season for the record books, from the first overtime wins to the first player to reach 100 points in a season, and we're only just getting started.

WER is redefining the perception of rugby in the US and creating space for women to discover new role models and showcase their unique strengths.

THE LEGACY CUP

WER is built on the legacy of the Women's Premier League (WPL), an amateur, player-run rugby league that ran from 2009-2024. The WPL laid the foundation for women's rugby in the United States, and the Legacy Cup was named to honor the WPL members and so many women's rugby trailblazer — without their dedication to the game, WER would not be here today.

THE TROPHY

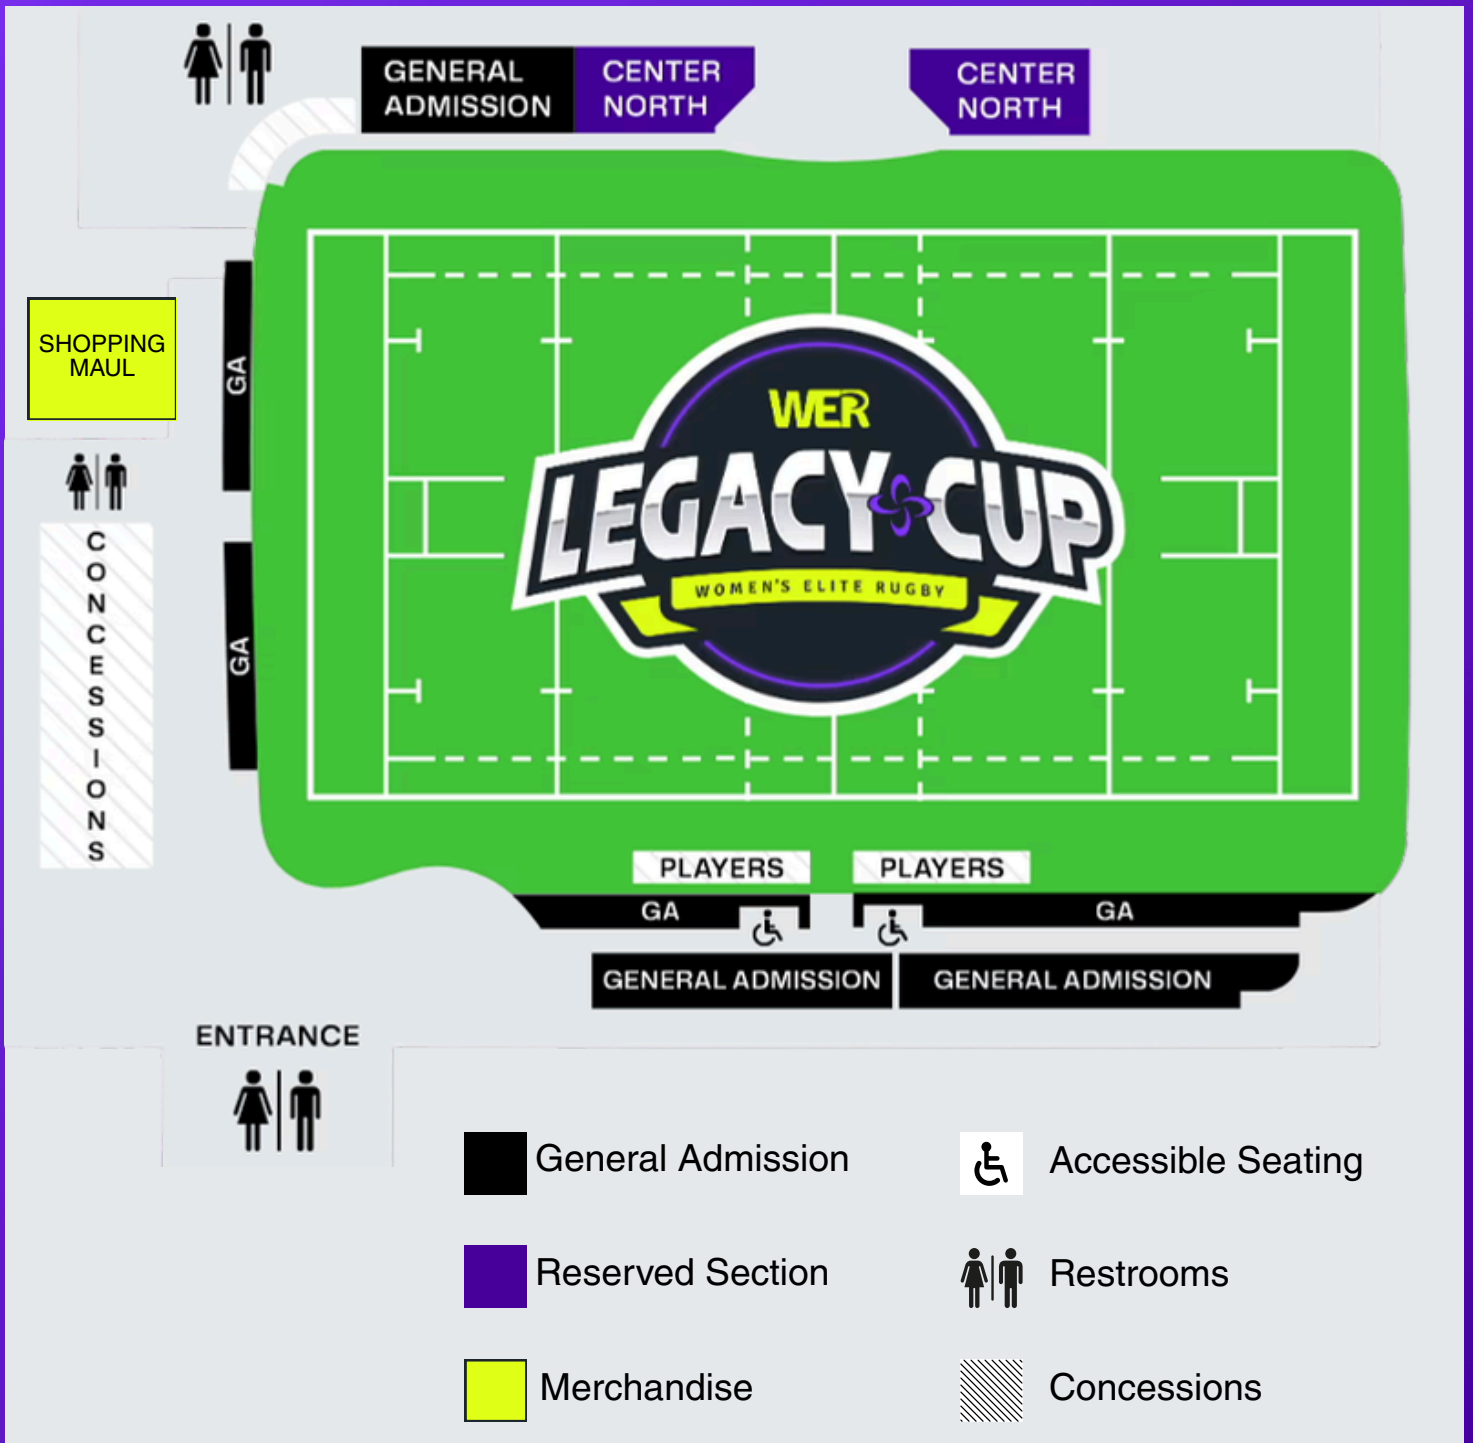

The Legacy Cup trophy was designed by Amy Root, a Colorado-based landscaping designer and former women's rugby player who channels her creative energy into artwork. The design iterates on the image of an unfinished rugby ball and evolves it into a more complete and tightly layered structure that reflects the growing unity and strength of the women's game. The cup not only marks a championship win, but honors the ongoing legacy of women growing and leading the game forward.
