with supplementary information from
Beaver County Funeral Directors Association

Westmoreland-Indiana-Armstrong County Funeral Directors Association

The Allegheny County Funeral Directors Association is proud to present the 71st issue of the Ready Reference Manual. This manual has a long tradition of representing the funeral profession in Southwestern Pennsylvania. Our goal over these many years has been to provide current, updated information about our fellow colleagues, as well as vendors, service providers and community organizations that enrich and support our work.

Together we can provide comprehensive and seamless support for the families that we serve. We would like to take this opportunity to thank all of those who have grown with us over these many years to assist us in meeting the ever changing needs of our families, our communities and our profession.

Every effort has been made to avoid errors, but if you find any, please notify ACFDA. Important corrections will be printed in the monthly **Bulletin**. Every user of this manual can help to make the next edition better.

Style and Strength. That's the Wilbert Way

Structurally sound and beautifully designed, Wilbert sets the standard for lined and sealed burial vaults. Constructed of high strength concrete and reinforced with a plastic liner, a Wilbert vault helps protect the casket and its contents from ground contaminants entering the gravesite and from immense overhead weight. Along with a wide range of colors and materials, many Wilbert models are designed to allow for a personalized vault cover for display during the ceremony.

Families can capture a cherished memory or highlight a loved one's spirit, passion and personality for a meaningful tribute that will be admired and appreciated by all who attend the service at the cemetery.

Who says a vault can't be strong and stylish? That's the Wilbert Way.

PITTSBURGH INSTITUTE OF MORTUARY SCIENCE

Partnering with the Profession

With our newly renovated clinical care center unlike any other, we are honored to provide any/all decedent care services, when appropriate, to funeral homes at no cost. By "partnering" with PIMS in this manner, you enable the future of funeral service by giving students real world, "hands-on" experience in embalming and other professional services.

Campus Upgrades

Over the past few years, we have enhanced our campus experience with smart classrooms, a modern student lounge featuring a convenient scan-and-pay café, and a newly renovated lobby with a water feature and Wall of Benefactors. A new on-campus SIMULATED funeral home is also nearing completion, further strengthening our commitment to creating a innovative learning environment for students.

PIMS Family

PIMS is truly a family! From our dedicated, tight-knit faculty and staff to our alumni across the country, we foster a supportive, lifelong community grounded in our motto, "follow your servant's heart." And of course, we can't forget our Comfort Puppy in training, Winifred "Winnie" Valentine, who is on campus daily providing encouragement, connection, and support to our students.

Applications signed by a son, daughter, sister, brother, or parent will not be accepted by the Bureau.

DEATH BENEFITS

The following is a summary of death benefits available to honorably discharged wartime veterans with established legal residence in Allegheny County, Commonwealth of Pennsylvania.

LEGAL RESIDENCE

The term "legal residence" shall be construed as synonymous with "domicile" and is hereby defined as actual residence, coupled with intention that it shall be permanent, or a residence presently fixed with no definite intention of changing it or of returning to a former residence at some future period. Legal residence is to be determined by abode or person or his or her intention to abandon a former domicile and establish a new one. The legal residence of a deceased service person shall be prima facie in the county where he or she made his or her abode at the time of his or her death.

BURIAL ALLOWANCE

An allowance of \$100 will be paid toward the funeral and burial expenses of veterans who served during any war in which the United States has engaged, whose separation from such service was honorable, and whose legal residence at time of death was in Allegheny County. One day's service during wartime fulfills time requirement for eligibility.

Application must be made within one year after death of veteran. www.alleghenycounty.us/services/veterans-services/county-benefits/burial-benefit-forms

FREE BURIAL PLOTS

Free graves for indigent, honorably discharged, wartime veterans and their spouses

Are available at Restland Lincoln Memorial Park. Funeral directors or their representative must obtain a burial permit from the Department of Veterans Services. A statement must be signed verifying that sufficient funds are not available which to bury the veteran. Cloth covered or flat top caskets only are authorized for burial in this section. No opening or closing costs are involved. Markers 1-800-697-6947.

HEADSTONE

A further benefit is the provision of a federal government stone to mark the veteran's grave. Headstones are provided for the grave of veterans.

Allegheny County will pay up to \$100 for the foundation and installation of these headstones. The family must pay the difference over this amount to the cemetery or person installing the foundation. There is no charge for the headstone or shipment expense.

To avoid misunderstandings and delays, be sure to complete VA form 40-1330, Application for Standard Government Headstone or Marker and submit it to the address indicated in the instruction portion of the form. The County Veterans Office will no longer take responsibility for contacting The Monument Services in Washington, D.C.

The VA advises funeral directors to be sure that all information on the form is complete, including signatures in blocks 23 (applicant), 25 (person to accept delivery), and 31 (cemetery official). If there is no official in charge of the cemetery, write 'NONE' in block 29.

FLAGS

An American flag to drape the casket of a veteran may be obtained at any Post Office or the Veterans Affairs Regional Office, Room 415, 1000 Liberty Avenue, Pittsburgh. VA Form (27-2008)

Allegheny County provides flags and emblem markers for the observance of Memorial Day. These flags are used for decorating the graves of deceased war veterans buried in the County. The flags are provided free to veterans organizations who take the responsibility of placing them on the graves. Also, they are given to individual families requesting them.

WIDOWS' BURIAL ALLOWANCE

Widows of eligible military personnel also are entitled to a \$100 burial allowance. The widow's husband must have been an honorably discharged veteran, with service during wartime, and her residence must have been in Allegheny County at the time of her death.

- 3) the deceased veteran served during a period of war and was buried in a cemetery owned by a State (or political subdivision of a state) and in a section of the cemetery reserved for veterans who could be buried in a national cemetery.

A \$2000 burial allowance, in lieu of the above burial and plot allowances, is provided if the cause of death is determined to be service-connected.

Application for these benefits should be made on VA Form 21-530 by the funeral director, if the bill is unpaid, or by the person who paid the funeral bill. The County Director of Veterans Affairs reminds everyone that the burden of obtaining proof of service and legal residence is upon the person making arrangements for the funeral or the applicant.

To obtain county benefits, proof of honorable active wartime military service, the death certificate, and proof of Allegheny County residence must be presented at time of application.

IN ORDER TO EXPEDITE THE PAYMENT OF YOUR CLAIM ALL OF THE FOLLOWING SHOULD BE SUBMITTED BY YOU ALONG WITH A COMPLETED VA FORM 21-530EZ, APPLICATION FOR BURIAL BENEFITS.

1. PROCESSING APPLICATION FOR BURIAL BENEFITS

- a. **VA FORM 21P-530EZ** – Form must be completed in its entirety. Item 3A & 3B (name of claimant) should match with Item 34A & 34B on back of form (signature of claimant) if funeral home is claimant.

Charges for interment include: vault, opening/closing of grave and cost of plot. If funeral home sold a vault or advanced funds for cemetery expenses, bill must show this. Also, if account is paid in full or in part, statement should show date and payments or any balance due. If another funeral home was involved initially, you must furnish receipted bill or include their charge on your statement separately. If veteran was cremated show exact charges for cremation and cremation urn.

- b. **NECESSARY DOCUMENTS** – Claim must be supported by a copy of the letters of administration or letters testamentary certified over the signature and seal of the appointing court. If no administrator or executor has been appointed, claim may be filed by a person acting for the estate who will make distribution under the existing laws of the state of the decedent's domicile.

than the one provided by the government, only those claims in which death occurred before November 1, 1990 can the lump sum reimbursement be made. The VA marker or headstone will still be available, but no allowance toward private markers can be made. As of November 1, 1990, the headstone and marker allowance is eliminated.

Burial Benefits

Effective July 7, 2014: VA is changing its monetary burial benefits regulations to simplify the program and pay eligible survivors more quickly and efficiently. These regulations will authorize VA to pay, without a written application, most eligible surviving spouses basic monetary burial benefits at the maximum amount authorized in law through automated systems rather than reimbursing them for actual costs incurred.

- Under the current regulations, VA pays for burial and funeral expenses on a reimbursement basis, which requires survivors to submit receipts for relatively small one-time payments that VA generally pays at the maximum amount permitted by law.
- The new burial regulations will permit VA to pay, at a flat rate, burial and plot or interment allowances thereby enabling VA to automate payment of burial benefits to most eligible surviving spouses and more efficiently process other burial benefit claims.
- The burial allowance for a non-service-connected death is \$300, and \$2,000 for a death connected to military service.

Benefit

Service-related Death

VA will pay up to \$2,000 toward burial expenses for deaths on or after September 11, 2001, or up to \$1,500 for deaths prior to September 11, 2001. If the Veteran is buried in a VA national cemetery, some or all of the cost of transporting the deceased may be reimbursed.

Non-service-related Death

VA will pay up to \$796 toward burial and funeral expenses for deaths on or after October 1, 2019 (if hospitalized by VA at time of death), or \$300 toward burial and funeral expenses (if not hospitalized by VA at time of death), and a \$796 plot-interment allowance (if not buried in a national cemetery). For deaths on or after December 1, 2001, but before October 1, 2011, VA will pay up to \$300 toward burial and funeral expenses and a \$300 plot-interment allowance. For deaths on or after April 1, 1988 but before October 1, 2011, VA will pay \$300 toward burial and funeral expenses (for Veterans hospitalized by VA at the time of death).

An annual increase in burial and plot allowances for deaths occurring after October 1, 2011 began in fiscal year 2013 based on the Consumer Price Index for the preceding 12-month period.

SOCIAL SECURITY

INTRODUCTION

This summary must be of a most general nature since the Social Security program is constantly in a state of flux. The basic idea of Social Security is a simple one: during working years employees, their employers, and selfemployed people pay Social Security contributions which are pooled in special trust funds. When earnings stop or are reduced because the worker retires, dies, or becomes disabled, monthly cash benefits are paid to replace part of the earnings the family has lost.

A part of the contributions made goes into a separate hospital insurance fund so that when workers and their dependents reach age 65 they will have help in paying their hospital bills. Voluntary medical insurance, also available to people 65 or over, helps to pay doctor's bills and other medical expenses. This program is financed from premiums shared by the people who sign up and by the Federal Government.

AMOUNTS OF MONTHLY PAYMENTS

The amount of your monthly retirement or disability benefit is based on your average covered earnings under Social Security over a period of years. The amount of the monthly payments to your dependents or to your survivors in case of your death also depends on the amount of your average covered earnings.

The exact amount of your benefit cannot be figured until there is an application for benefits. This is because all of your earnings up to the time of the application may be considered in figuring your benefit.

DISABILITY PAYMENTS

If you become disabled before your full retirement age (65-67), you and certain members of your family may be eligible for benefits.

Do not wait too long after you are disabled to apply for benefits; If you wait more than a year, you may lose benefits. Payments may begin after the fifth full month of disability.

If you are found eligible for disability insurance benefits, you will remain eligible as long as you are disabled. When you reach your full retirement age (65-67), your benefit will be changed to retirement payments at the same rate.

FAMILY PAYMENTS

Monthly payments can be made to certain dependents of a worker who has retired, become disabled, or died.

Retirement or disability – A worker can elect to receive a benefit as early as age 62. If a worker is receiving retirement or disability benefits, monthly benefits also can be made to his or her:

- Unmarried children under 18 (or under 19 if

full-time high school students)

- Unmarried children 18 or over who were severely disabled before 22 and who continue to be disabled.
- Wife or husband 62 or over.
- Wife or husband under 62 if she or he is caring for a child under 16 (or disabled) who is getting a benefit based on the retired or disabled worker's earnings.

Survivors – Monthly payments can be made to a deceased worker's:

- Unmarried children under 18 (or under 19 if full-time high school students).
- Unmarried son or daughter 18 or over who was severely disabled before 22 and who continues to be disabled.
- Widow or widower 60 or older.
- Widow or widower, or surviving divorced mother or father if caring for worker's child under 16 (or disabled) who is getting a benefit based on the earnings of the deceased worker.
- Widow or widower 50 or older who becomes disabled not later than 7 years after the worker's death, or within 7 years after mother's or father's benefits end.
- Dependent parents 62 or older.

Checks also can go to a divorced spouse at 62 or over, or a surviving divorced spouse at 60, or to a disabled surviving divorced spouse 50 or older if the marriage lasted 10 years or more. Under certain conditions, children may be eligible for Social Security benefits based on a grandparent's earnings.

A divorced spouse, who has been divorced at least 2 years, can receive benefits at 62 whether or not her or his former spouse receives them. The former spouse must be eligible for Social Security benefits regardless of whether he or she has retired.

Generally, a marriage must have lasted at least 1 year before dependents of a retired or disabled worker can get monthly benefits; survivors can get benefits in most cases if the marriage lasted at least 9 months.

In addition to monthly benefits, a lump-sum payment may be made after the worker's death. The lump-sum death payment is generally \$255 and can be made only to:

1. the surviving living-with spouse; or
 2. a child entitled to monthly payments in the month of the death.
 3. Spouse entitled to a monthly payment in the month of death whether "living with" or not.
- Application for this lump-sum payment usually

SOCIAL SECURITY

must be made within 2 years after the worker's death. Social Security benefits you receive may be subject to Federal income tax, dependent upon income level and tax filing status.

APPLICATION IS NECESSARY

Before payments can start, you need to file an application. You should contact Social Security 2 or 3 months before you want benefits to begin. Even if you are still working and do not wish to file for monthly retirement benefits, you should contact Social Security 2 or 3 months before age 65 to file for Medicare. You can phone toll free at 1-800-772-1213, or you may wish to file online at www.socialsecurity.gov. You can file for reduced benefits starting at age 62. For every month that you delay filing for your benefits past age 62, you increase the percentage that you will receive. If you delay filing until you reach your Full Retirement Age (FRA), you will receive 100% of the benefit payable to you. FRA for people born before 1938 is 65. If you were born in 1938 or later, FRA will gradually increase until it reaches age 67 for those born 1960 or later.

IF YOU WORK AFTER PAYMENTS START

When you apply for retirement or survivors insurance benefits, your Social Security office will explain how any future earnings you may have affect your payments and when and how to report your later earnings to Social Security Administration.

The explanation that follows is intended to give a general idea of the conditions under which benefits are paid to people who are still working.

For 2018, the following rules apply:

1. If you are under your FRA and earn \$17,040 or less for the year, you will receive all benefits. \$1 in benefits will be withheld for each \$2 you earn above \$17,040. There is a special rule that applies only to your first year of retirement. Under this rule, you can receive a Social Security check for any month you earn less than 1/12 of the yearly limit, regardless of how much you make for the year. This monthly amount for a person under FRA is \$1,420.
2. In the year you reach your FRA, \$1 in benefits will be withheld for each \$3 you earn above a different limit, but only counting earnings from January 1 through the month before the month you reach your FRA. For 2018, this limit is \$45,360.
3. Starting with the month you reach your FRA, you can receive your full benefits with no limit on your earnings.

HEALTH INSURANCE

Nearly all people 65 and over are eligible for health insurance protection under Medicare. The two parts of Medicare – hospital insurance and medical insurance – help protect people 65 and over from the high costs of health care. Also eligible for Medicare are disabled people under 65 who have been entitled to Social Security benefits for 24 or more months (including adults who are receiving benefits because they have been disabled since childhood). Insured workers and their dependents who need dialysis treatment or a kidney transplant because of permanent kidney failure also have Medicare protection.

The hospital insurance part of Medicare helps pay the cost of inpatient hospital care and certain kinds of follow-up care. The medical insurance part of Medicare helps pay the costs of physicians' services, outpatient hospital services, and certain other medical items and services not covered by hospital insurance. People who have medical insurance pay a monthly premium covering part of the cost. The other part is paid from general Federal revenues. The basic premium is now \$134 per month for 2018.

If you are eligible for a Social Security or Railroad Retirement check either as a worker, dependent, or survivor, you are eligible for hospital insurance protection when you are 65.

It is a good idea to apply for your Medicare insurance 3 months before your birthday month. That way your protection will start the month you reach 65. When you apply for hospital insurance, you will be enrolled automatically for the medical insurance part of Medicare unless you indicate that you do not want it.

People 65 and over who have not worked long enough to be eligible for hospital insurance can get this protection by enrolling and paying a monthly premium just as they would for other health insurance. People who buy Medicare hospital insurance also must enroll in medical insurance.

SUPPLEMENTAL SECURITY INCOME

In addition to the benefits mentioned above, there is a Federal program called Supplemental Security Income (SSI). It assures a minimum monthly income to needy people with limited income and resources who are 65 or older or blind or disabled. Eligibility is based on income and assets. The nationwide rate for 2018: payments of up to \$750.00 per month (\$1,125.00 for a married couple) can be made. Although the program is administered by the Social Security Administration, it is financed from general revenues, not from Social Security taxes.

SOCIAL SECURITY STATEMENT

In October, 1999, The Social Security Administration began mailing a yearly earnings and benefit estimate statement to all workers 25 or older who are not already receiving a Social Security benefit. The four-page statement is intended to help workers plan their financial future. The statement provides

estimates of retirement, disability and survivors benefits. Workers can expect to receive their statements each year, about three months before their birthday.

You can now conduct much of your Social Security business on the internet at www.socialsecurity.gov. In addition, an online estimator program can help individuals get even more detailed estimates.

RAILROAD RETIREMENT BOARD BENEFITS

The Railroad Retirement Board district office is located at Moorhead Federal Building, Room 1511, 1000 Liberty Avenue, Pittsburgh, PA 15222, 1-877-772-5772, Fax: 412-395-4711. The area serviced by the Pittsburgh office is the immediate tri-state area in addition to Allegheny County.

Of general interest is the payment of lump sum death benefits by the Board upon the death of a qualified railroad employee. It can be paid to a living spouse or to the payer of burial expenses. Survivors

in this general category, among others, include widows age 60 or over, disabled widows age 50 or over and minor children or children over age 18 who were disabled before age 22, children between 18-19 who are attending elementary or secondary school full time, and dependent parents.

Upon the death of a present or former railroad employee, survivor benefits are payable by either the Railroad Retirement Board or Social Security, but never by both agencies. Several factors are involved in determining which agency handles the case, and such advice can be secured by contacting the Board.

Effective July 3, 2000, The Pennsylvania Department of Public Welfare (DPW) increased the fees listed in the Medical Assistance (MA) Program Fee Schedule for services rendered by funeral directors, when there are no resources to reduce the payment. "Any agency or Person" may make an additional payment of \$750. This change in DPW rules will be effective for a year, during which public comments will be received, pending adoption of final rulemaking by DPW.

NEIGHBORING STATE COURTESY AGREEMENTS

Addresses and phone numbers for the State Boards in these and other states are on file at the ACFDA office.

DELAWARE

The State of Delaware has no licensure agreements with the State of Pennsylvania or any other state as per 24 Del. C. s 3109.

MARYLAND

Out of state licensees must contact the Maryland Board of Morticians (1(410) 764-4792) to obtain a Courtesy Card application form and, once processed and approved, the Board will issue a Courtesy Card license.

NEW JERSEY

A Pennsylvania funeral director can engage in a limited practice in New Jersey.

NEW YORK

The state of New York has recently passed legislation that puts into place specific requirements with respect to the tracing of bodies. This law will directly affect those of you who are doing removals, com-

mittal services or retrieving bodies from an airport in New York. The new law now requires a New York licensed funeral director provide these services. Therefore, you must either become so licensed to perform the above or contract with a New York funeral director to assist you in providing such services. New York will no longer allow funeral directors licensed in Pennsylvania to operate independently within the borders of New York State.

OHIO

Privileges are the same in New York except that a Pennsylvania funeral director can legally sign a Death Certificate in Ohio. He must, however, do this and file for a Transit-Burial Permit before he removes remains from the state.

WEST VIRGINIA

Courtesy cards are only issued to persons who are licensed funeral directors in bordering states. While a courtesy card holder can conduct funerals, prepare death certificate and bury a body for an out of state funeral establishment, they are not allowed to prepare or embalm bodies or to disinter bodies within the boundaries of the State of West Virginia.

DEATH CERTIFICATES

CERTIFIED COPIES

Local registrars may issue certified copies of death certificates up to 90 days from the date of death as long as they issued a certified copy at the time the certificate was filed. The fee for certified copies from the local registrar is \$20.00. The fee for certified copies issued by the regional Vital Records office is \$20.00. Up to 10 free copies may be issued to veterans or veterans dependents but they **cannot** be issued by local registrars. Contact the regional office for free copies.

CORRECTIONS

Correction of Death Certificates Originally Incorrect: For the correction of a certificate of death or a fetal death, a statement submitted by the same person who signed the original certificate will be sufficient proof on which to base a correction or the

addition of information pertaining to the deceased person. However, the medical certification, and the place and date of death, and place and date of burial, may not be corrected by such means.

Correction of Date of Place of Burial: The correction of date or place of burial on a death or fetal certificate must be based upon a written statement submitted by a funeral director.

Correction of Medical Certificate of Death: The correction of the medical certification of cause of death, or medical certification of date or place of death, or the addition of information relating to the same, requires an amended (new) certificate of death. The hour of death may be changed on the basis of a written statement submitted on a physician's or hospital's letterhead.

Social Security survivors benefits are paid to widows, widowers, and dependents of eligible workers. This benefit is particularly important for young families with children. How much your family could receive in benefits depends on your average lifetime earnings. The higher your earnings were, the higher their benefits would be. If you are already receiving reduced benefits when you die, benefits for your surviving spouse may be affected.

These are examples of monthly benefit payments that survivors may receive:

- Surviving spouse, full retirement age or older—100% of your benefit amount.
- Surviving spouse, age 60 to full retirement age—71½ to 99% of your basic amount.
- Surviving spouse, age 50 through 59—71½%
- Surviving spouse with a disability, any age, caring for a child under age 16—75%
- A child under age 18 (19 if still in elementary or secondary school) or has a disability—75%.
- Your dependent parent(s), age 62 or older:
 - One surviving parent—82½%.
 - Two surviving parents—75% to each parent.

Percentages for a surviving divorced spouse would be the same as above.

Documents You Need to Apply

- Proof of the worker's death;
- Birth certificate or other proof of birth;
- Proof of U.S. citizenship or lawful alien status if you were not born in the United States
- U.S. military discharge paper(s) if you had military service before 1968;
- For disability benefits, the two forms (SSA-3368 and SSA-827) that describe your medical condition and authorize disclosure of information to us;
- W-2 forms(s) and/or self-employment tax returns for last year;
- Final divorce decree, if applying as a surviving divorced spouse; and
- Marriage certificate

Benefits for Same-Sex Couples

Your marital status is important in determining your entitlement to retirement, survivors, Medicare, and disability benefits. You or your spouse could be entitled to benefits, or a higher benefit amount, based on your marital relationship. Your children or stepchildren could also be entitled to benefits. For some surviving spouses, divorced spouses, and adults who developed a qualifying disability during childhood, benefits could end if they marry. Marriage may also affect your Supplemental Security Income (SSI) eligibility or payment amount.

In some cases, people who are in non-marital legal relationships like civil unions or domestic partnerships may also be entitled to benefits as a married person.

Survivors Benefits for Same-Sex Partners and Spouses

Surviving same-sex partners and spouses previously excluded from receiving Social Security survivors benefits may now qualify for benefits. If you were in a same-sex relationship with a partner or spouse who passed away, you may qualify for benefits based on your partner's or spouse's record.

You may qualify for survivors benefits if either of the following are true:

- You would have been married at the time of your partner's death if unconstitutional state laws hadn't prevented you from doing so.
- You would have been married longer if not for unconstitutional state laws that prevented you from marrying earlier.

If you think you may qualify based on the categories above, please contact us to apply. Even if you were previously denied survivors benefits because you did not meet the marriage requirement due to unconstitutional laws, you can ask us to reopen, or take another look at, your claim. If you were previously denied and we find that you qualify for benefits, you may be due retroactive benefits.
