33 years processing film  
EST 1990

## C-41 Same Day available\*

\* Last rolls in by 2pm - dependant on workload cut-off may be as early as 1pm on high volume days

LAB OPEN MON-SAT 10AM-4PM

or fill in the other side and post or use our after hours front door drop slot

- Developing, scanning (scans since 98') and printing film since 1990, open for processing 6 days a week, Monday to Saturday.
- Whether you're just starting out or shoot for a living; we're here to help you achieve the very best from your photography.
- C-41 Colour rolls developed on site with Professional in-store quality control plotting and monitoring for reliable consistent results.
- True black & white and E6 positive transparency slide film developed by our trusted out-labs. (B&W out-lab partner since late 90s)
- All developed films are scanned on site using professional industry grade Noritsu scanners. (Three HS-1800s and a LS-600)
- We provide neutral files, true to the film stock shot with minor density & colour corrections by our experienced lab operators.
- Our same high level of professional quality control applies whether you choose same day or longer service times.
- In addition to scans we provide a multitude of output options, whether it's archival prints, metal, canvas, gifts and more.
- No matter what brand of film you have, we'll develop, scan and print it to perfection. Quality first, service always.
