THE NATIONAL SOCIETY OF THE
WASHINGTON FAMILY DESCENDANTS

October 6, 2026

REGISTRAR'S REPORT: 2025-26

SUMMARY OF ACTIVITIES:

The Washingtons A Family History:

I have been working closely with Savas Beatie to encourage a reprinting of *The Washingtons: A Family History* by our cousin, Dr. Justin Glenn — the Society's accepted authority on the Presidential Line of the Washington Family. For those who may be unfamiliar, Dr. Glenn's scholarship carries the endorsement of the distinguished genealogist John Frederick Dorman, compiler of *Adventurers of Purse and Person*, the Society's accepted published authority for the Martiau, Reade, and Warner lines.

Thanks to this collaboration, a reprint is now forthcoming. With the support of the NSWFD Board of Directors, the Society will acquire ten complete sets, including indexes, at a highly favorable price. This ensures continued access to the most reliable and comprehensive Washington scholarship available.

Registrar Support and Records Integrity

The Registrar has also provided assistance to Susan Byerly, her mother Marilyn Hanson, and Lisa Saxton in addressing inconsistencies within membership records in the Membership Works system. This effort strengthens the accuracy and reliability of our internal documentation and supports the long-term integrity of the Society's membership records. Thank you all for your efforts on this project.

Engagement with The Washington Heritage Museums

Recently, I was contacted by The Washington Heritage Museums, specifically the Mary Washington House Museum in Fredericksburg. I was invited for a tour of the museum as well as a newly acquired property near the Mary Washington Monument and Meditation Rock. The staff is enthusiastic about their expanding opportunities and expressed a clear interest in developing a relationship with the NSWFD.

In the near future, they will be able to host a luncheon, guided tour, and additional activities for our members. The museum group also includes the Hugh Mercer Apothecary and the Rising Sun Tavern — the one-time home of Charles Washington, built in 1760 and converted into a tavern by 1792.

I was impressed by the staff's depth of knowledge and the care evident in their plans for the property. Their professionalism and vision suggest a promising partnership for the Society

Inquiries

As of 04 October 2026, the Registrar has handled one hundred and sixty-six inquiries — a clear indicator of sustained and growing interest in the Society. From those inquiries, thirty-one applicants advanced to the formal application stage, demonstrating a strong conversion rate among prospective members. Of the applications sent, eleven complete packages have already been received, reviewed, and approved for admittance to the NSWFD.

In addition, four Associate Memberships have been approved, further expanding the Society's reach and engagement.

Taken together, these figures reflect a healthy and active pipeline, steady progress in formal admissions, and continued visibility of the NSWFD within the broader Washington-descendant community.
