TRIMMERS AND BRUSHCUTTERS

RedMax heavy-duty, commercial trimmers and brush cutters can clear, trim or edge with ease. Solid-steel drive shafts reduce vibration and improve acceleration. Low-friction and smooth-running, they're comfortable to use and deliver trouble-free operation with little maintenance.

SELECT TRIMMERS AND BRUSHCUTTERS FEATURE:

- 1. High performance and efficient Strato-Charged® engine
- 2. Skid plate
- 3. Full wrap Free Flow™ air net system
- 4. Durable, long, ergonomic throttle trigger.
- 5. Light weight hollow drive shaft with damper reduces vibration
- 6. High visibility debris guard
- 7. Commercial-duty tap head
- 8. Heavy-duty 4 bearing gear case with grease fitting
- 9. Cushioned loop handle

Handle Type	Loop Handle
Warranty - Commercial/Domestic	2 Year/5 Year

22" hedge trimmer available with 4" or 33" shaft for hard to reach trimming

43" pole saw provides extended reach when pruning limbs and branches

The shaft extension provides an extra reach of almost 32"

Ideal for lawn edges and hard to reach areas of long grass

AVAILABLE ATTACHMENTS

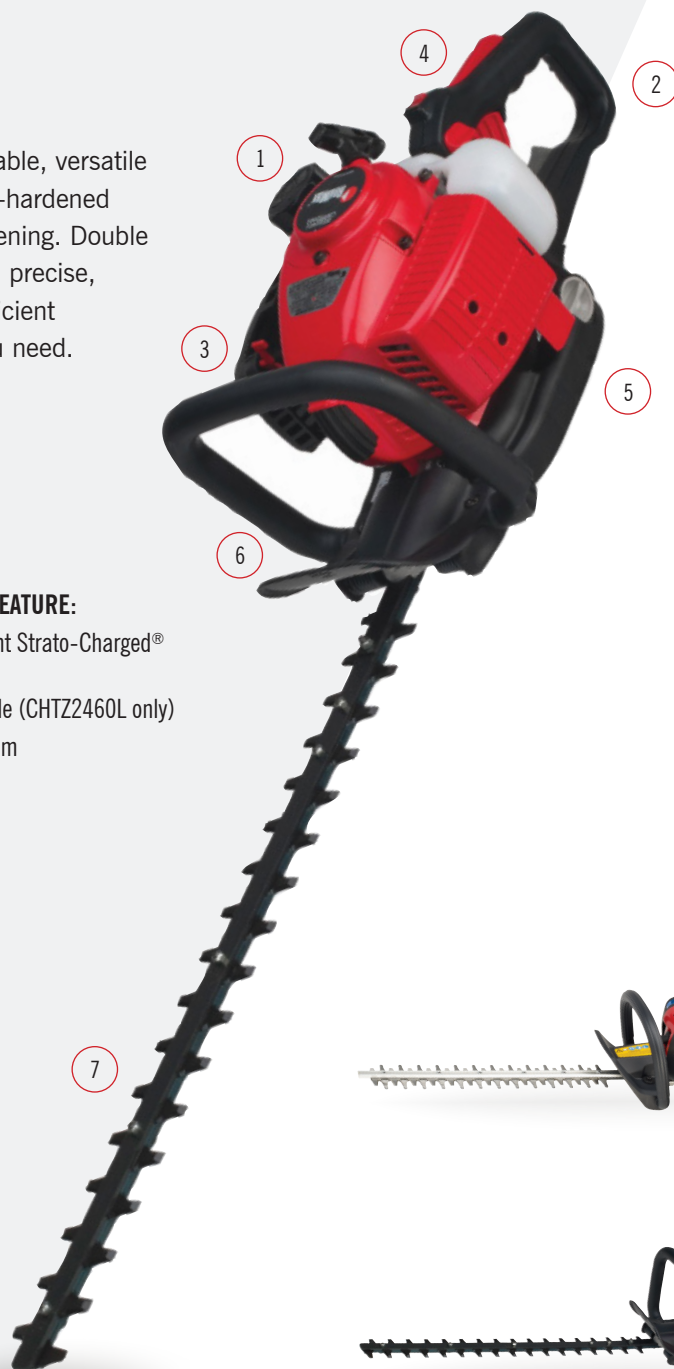

1. Hedge Trimmer 4" Boom	LRT-EX110
2 Hedge Trimmer 33" Boom	LRT-EX850
3. Pole Saw 43" Boom	PS-EX1100
4. Extension	EX-EX780
5. Trimmer	BC-EX850

HEDGE TRIMMERS

RedMax offers an extensive line of durable, versatile and easy-to-use hedge trimmers. Case-hardened steel blades reduce the need for sharpening. Double reciprocating blades deliver fast, clean, precise, manicured cuts. And powerful, fuel efficient engines deliver all the performance you need.

SELECT HEDGE TRIMMERS FEATURE:

1. High performance and efficient Strato-Charged® engine (CHTZ2460L only)
2. 180 degree adjustable rear handle (CHTZ2460L only)
3. Full wrap Free Flow™ air net system
4. Auto return stop switch
5. Long life gear components
6. Cushioned loop handle
7. Sharp and robust cutting teeth

BLOWERS

RedMax blowers are powerful. They're also efficient and easy to operate. Packed with features that include two-stage commercial air filters, vibration dampening, cruise control, and cushioned back pads, RedMax blowers truly deliver all the power you need.

SELECT BLOWERS FEATURE:

1. Comfortable formed back pad
2. Swivel grip system
3. Full wrap Free Flow™ air net system
4. Magnesium engine crankcase
5. Large, upright, easy view fuel tank
6. Durable blow molded frame
7. Cruise control
8. S-shape tube design reduces rotational forces
9. Adjustable tube length
10. Effective vibration dampening system

Clean air intake system reduces dust and extends filter life.

(EBZ8500RH Only)

Two stage, heavy-duty air filtration system.

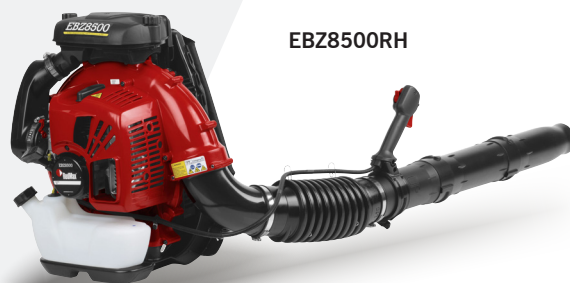

Reflective decals provides safe operation in low light conditions.

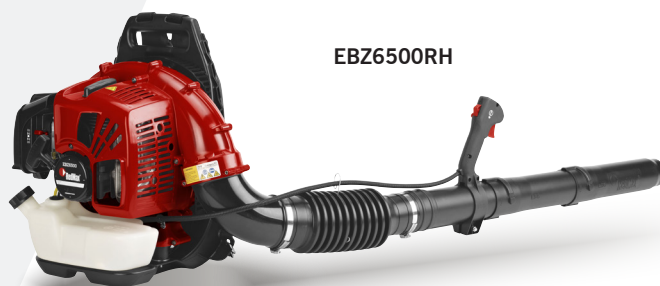

Tube mounted throttle for added comfort and convenience.

STRATO-CHARGED® ENGINES – SETTING THE STANDARD SINCE 1998

RedMax is the original inventor of the world's first stratified-charge 2-stroke engine. Introduced in 1998, our state-of-the-art Strato-Charged® engines are designed with advanced technology that has reduced environmental impact through efficient engine design, increased fuel economy and reduced emissions. Since then, this proven technology has delivered maximum performance in a light, rugged design with outstanding features that set it apart from the competition.

Engine Technology

STRATO-CHARGED® SUPERIORITY AND DURABILITY

Commercial Performance: Pure 2-stroke technology is ideal for commercial applications.

Low Maintenance: Minimal moving parts reduce the chance of problems. Requires no valve adjustments, oil changes or daily oil reservoir level checks.

Eco Friendly: Produces low emissions that meet clean air regulations.

Lightweight - No heavy, heated catalytic converter.

Efficient: Achieves up to 20% better fuel efficiency than standard 2-stroke engines.

Powerful: Generates 15% to 20% more kilowatts than a typical 4-stroke or 4-stroke hybrid engine of the same engine displacement size.
