

HERITAGE PREMIER PLUS

DESCRIPTION

Heritage Premier Plus is a Single Premium Deferred Annuity Contract that provides multi-year interest rate guarantees. It is designed to accumulate money for retirement. It is suitable for use as an IRA, Roth or SEP, as well as an alternative to CDs and other non-qualified vehicles. It is not available for 401(k), 403(b) or SIMPLE IRAs. You can start your **Heritage Premier Plus** annuity with a minimum premium of \$10,000.

Contract Form: ICC24-LBL-HTGPREMPLUS(03-24) or ICC24-CLIC-HTGPREMPLUS(03-24). Forms may vary by state.

HOW INTEREST IS CREDITED

Interest is credited and compounded daily. For the Guarantee Period you select, the interest rate will be credited for the entire period. At the end of the period, a new rate will be declared for the following contract year but will never be less than the Minimum Guaranteed Interest Rate of 0.15%. Once the Contract is issued, the Minimum Guaranteed Interest Rate will not change. Ask your agent for the current interest rate and Minimum Guaranteed Interest Rate.

CONTRACT VALUES

The Accumulated Value is 100% of the premium and interest earned less any withdrawals. The Cash Surrender Value is the Accumulated Value less Surrender Charges and Market Value Adjustment (MVA). The Death Benefit is equal to the Accumulated Value.

LIQUIDITY

After your contract has been in force for 30 days, you may make one **Penalty-Free Withdrawal** of 100% of the interest accumulated during the current contract year, subject to a minimum withdrawal of \$500. Alternatively, **Systematic Penalty-Free Withdrawals** of interest accumulated during the current contract year may be taken monthly, quarterly, semi-annually, or annually, subject to a minimum withdrawal of \$100.

Required Minimum Distributions (RMDs) from qualified plans are permitted without Surrender Charges or MVA and count towards your penalty-free withdrawal. RMDs are limited to the amount determined based on the Accumulated Value on the preceding December 31st.

There is a wide range of annuity settlement options from which you may choose, including fixed periods from 5-20 years, life with 5-20 years certain, and life income only.

A 10% IRS penalty may apply on amounts withdrawn before the owner reaches age 59½.

MARKET VALUE ADJUSTMENT (MVA)

The Market Value Adjustment is an amount by which we adjust the Accumulated Value. An MVA only applies when a Surrender Charge is deducted. The MVA may increase or decrease your Accumulated Value, depending on whether interest rates* have fallen or risen from the time of purchase. If interest rates have declined, your Accumulated Value could be higher. If interest rates have increased, your Accumulated Value could be lower. The MVA is not assessed on Death Benefit.

* For purposes of the MVA, interest rates are based on the ICE BofAML US Corporate 7-10 Year Effective Yield being published by the Federal Reserve Bank of St. Louis.
