

Dohner Memorials, Inc.

In 2025, in an effort to expand Groff-High-Eckenroth and Beck Funeral Home's ability to better serve all that call on them, our facility added the service of memorialization.

If you already have a memorial placed for your loved one, Dohner Memorials, Inc. provides the service of engraving monuments that have been previously placed.

The main facility of Dohner Memorials, Inc., is located at 100 Park Avenue in Sinking Spring, PA and is a full-service headstone company. Established in 1898, Dohner is owned by Kuhn Funeral Home in West Reading, and is managed by Dohner's longtime headstone expert, Keith A. Conrad, Keith is a 25-year veteran of the headstone business, previously working in New Holland.

You are welcome to call any of our offices to come in and meet with any of our directors to discuss a memorial for your loved one.

Options available, but not limited to...

Markers (Upright, Slant, Flat, Bevel, Bronze)
 Bench Memorials
 Pet Markers
 Specialty Markers
 All options are available in many colors and sizes

The Process

Step 1

The family selects the monument of their liking.

Step 2

Dohner produces the layout and design.

Step 3

The purchaser signs off on a final proof prior to the artisan's final work on the headstone.

Step 4

If the marker is in stock, Dohner can do the work on-site and have it prepared for installation in a very short period of time. Same-day service is sometimes possible. Should the marker not be in stock, the duration from time of selection until install simply takes a little more time.

Step 5

Once the headstone is prepared and ready to be placed at the cemetery, Dohner uses their equipment to transport the headstone to the cemetery for installation. Please note that the foundation needs to be poured and cured prior to placement of the headstone. Dohner will follow through on the foundation on the family's behalf.
