## COMMUNITY SERVICE/VOLUNTEER HOURS

GMC encourages Prep School students to volunteer to help others who are less fortunate and to help fill unmet needs in their community. Work performed must be intended to enrich the lives of others by assisting non-profit agencies, of which there are many in the area. In order to be considered as community service hours, the work performed must be documented with the date, time and type of work performed and signed by the person supervising the student. The student may not earn more than 8 hours of service within the 24-hour day. The person performing the volunteer work must not be compensated with money or goods. Participating in extra-curricular activities for self-enrichment, personal enjoyment or performing work in connection with a family member's personal business do not qualify as community service hours.

Students who accumulate 100 hours of approved community service within a calendar year will be eligible to receive the Distinguished Order of the Servant Leader (DOSL) Award at a school parade.

The Counselor is the contact for more information about the DOSL program.
