Dear Parents,

We are delighted to inform you that Wagner Middle School in collaboration with East Side Middle School and Yorkville Middle School will be hosting its annual Spring blood drive. In partnership with the New York Blood Center, the not-for-profit agency that provides blood to our area hospitals, we'll be organizing a Little Doctors Program. The program will culminate in a community blood drive at Wagner Middle School on Wednesday, May 24th from 3:30pm-8pm and encourages students to help in the recruitment of parents, neighbors and other community residents. The Little Doctors program enables us to educate the students on the importance of blood donation as well as the opportunity for them to learn leadership skills and gain valuable community service experience.

A representative from the New York Blood Center will make presentations about the need for blood, blood components, blood types, etc. These topics provided the children with a memorable educational experience and a sound background for their role in organizing a blood drive at their school. They will also build on this experience when they reach age 16 and will be eligible to participate in student blood drives at their High School.

We thank you in advance for your support and look forward to seeing you on Wednesday, May 24th.

Best,

Robert F. Wagner Middle School

East Side Middle School

Yorkville Middle School
