### Images:

Your work is viewed through the image you submit. Please submit a high-quality image (.jpg, .jpeg, or .png) between 400 KB and 12 MB. Make sure you photograph your work and not the surroundings.

- 2D work should be photographed prior to matting/framing for the best quality.
- 3D work is allowed an additional image to show another side or detail of the work.

### Need assistance with photographing your work?

WBCA is offering artists the opportunity to have their artwork professionally photographed by Lars Samuelsson on September 5 & 6. Click [here](#) for more information.

### Conditions for Artwork

Hanging wire should be 1/3 down from the top of the piece, not taut nor too much slack (the wire, when pulled up should not be too close to the top edge).
- An identification label (stating name, title, and medium) must be attached to the back of 2D works on the upper-left-hand corner and wherever feasible on 3D works.
- Oil/acrylic paintings must be framed unless the painting extends to the sides of the canvas.
- Drawings, prints, and watercolors should be under glass and framed. Exceptions include work that has been covered with wax or varnish.
- Photographs should be under glass and framed. Exceptions include photographs printed on metal or canvas if the photograph extends to the sides of the canvas. Other methods may be acceptable.

Reasonable care will be taken in handling and displaying artwork, but no responsibility is assumed by White Bear Center for the Arts for loss or damage of any kind.
