The Puppy Hotel: A Home Away From Home

Our Puppy Hotel is specially designed to cater to the unique needs of newborn puppies and their mothers. The climate-controlled environment maintains optimal temperature and humidity levels. We prioritise cleanliness and hygiene with regular sanitation protocols, ensuring a healthy environment for all. Each birthing suite provides a quiet, comfortable space for the mother to relax and bond with her puppies. We also have safe and secure outdoor areas available, allowing for supervised playtime and exploration as the puppies grow.

The safety and well-being of our canine guests is our top priority. Our facility is equipped with 24/7 monitoring, and our experienced staff is trained to recognize and respond to any potential health concerns.
