

Turn family engagement into attendance improvement

ParentSquare Attendance Plus helps districts build stronger connections, streamline interventions, and save staff time—all on the platform families already use and trust.

- Proactive tier-based outreach:**
Identify at-risk students within Attendance Plus and reach out supportively before absences become chronic.
- Automated compliance workflows:**
Generate compliant truancy letters and audit trails automatically, calibrated to your absenteeism thresholds and district process.
- Two-way family communication:**
Families can reply directly to attendance notices in their preferred language, turning a one-way warning into a documented two-way conversation.

"I definitely notice an awareness among students of how important it is to show up to school, which stems from ParentSquare and the messaging from it. There's **a culture building around why it's important to be in school**, which is very encouraging. That was not there last year."

Matthew LeBlanc, Executive Director of Communications,
Eagle Mountain-Saginaw ISD (TX)
