ABOUT US

Winners! 2025 NT Local Business Awards "Outstanding Consultants"

As a reputable ICT consulting, recruitment and labour-hire provider across the Northern Territory, Queensland and beyond, Moraitis Consulting (trading as Moraitis Engineering AU) stands as a trusted partner to Government and industry. We deliver strategic leadership and specialised talent that enable organisations to achieve their goals and drive sustainable success.

Our Mission:
Delivering High Quality and Compliant Services

Since its inception in Darwin during 2012, Moraitis Consulting is proud to be known for its quality services and genuine care for our clients and people. We have been awarded several Federal and All of NT Government Panel Contracts for Supply of ICT Consulting, Labour Hire and Recruitment Services. Our business-focused services have empowered success across multiple Government agencies, service providers and our own people.

Our Vision:
As community members we are strong advocates in delivering quality services to meet desired outcomes for business and community

Beyond recruitment and labour hire, Moraitis Consulting provides a comprehensive suite of ICT consulting services, including digital transformation, strategic advisory, AI Transformation, business analysis, project and change management, cyber security, ICT policy development and project administration. These capabilities enable us to deliver superior outcomes for our clients and our people.

Experience

20+ years' delivering ICT expertise across complex digital landscapes

Excellence

Ensures high level of customer, partner, and staff satisfaction.

Creativity

Thinking outside the square, creative with ideas and solutions

Team Orientated

Team orientated - objective focused.

Values

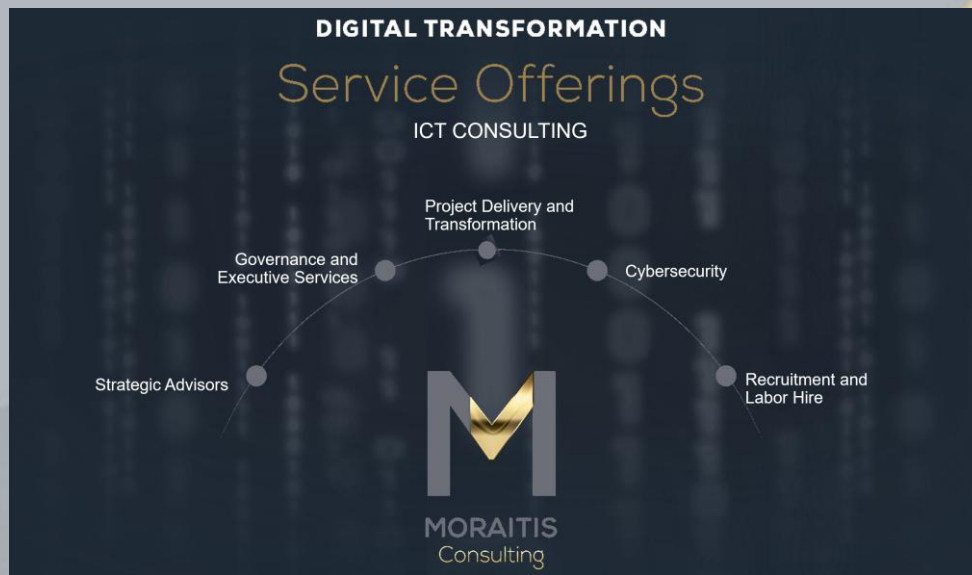

Honesty – Integrity –
Respect – Reliable!

High Quality

Strong advocate for very high-quality services and outcomes

OUR SERVICES

With extensive experience across multiple sectors, we provide personalized professional services tailored to meet the needs of your business and people.

Our services include:

1. Recruitment & Labour Hire

End-to-end recruitment solutions, including permanent placements, contract staffing and labour-hire services across all levels, from junior roles to Director, Executive and Board positions.

2. ICT Consulting

We partner with organisations to drive business success through integrated ICT Consulting services spanning strategy, governance, transformation delivery and workforce capability. By aligning technology investments with business priorities, we enhance decision-making, improve efficiency and deliver measurable, enterprise-wide outcomes.

3. AI Strategy & Implementation

Our AI Strategy & Implementation service is designed to help businesses of all sizes cut through the complexity of AI adoption and translate it into measurable outcomes.

4. Cyber Security & Information Management

Comprehensive services to safeguard your digital data and assets plus ensure compliance with industry standards.

5. ICT Training and Mentoring

Digital proficiency training, bespoke programs, and mentoring to build staff capability and achieve business objectives.

RECRUITMENT & LABOUR HIRE

With over 20 years of industry experience and more than a decade specialising in recruitment and labour-hire services, we ensure full compliance with employee legislative requirements while guiding and supporting staff throughout their career paths.

Our highly experienced recruitment consultants bring deep knowledge across a wide range of industry sectors. We have a proven track record in recruitment, successfully placing or on-hiring candidates across all levels, from Board Positions, Executives, and Senior Project or Business roles, through to junior level tech and admin roles. No matter the role, our emphasis is securing the right fit for your organisation.

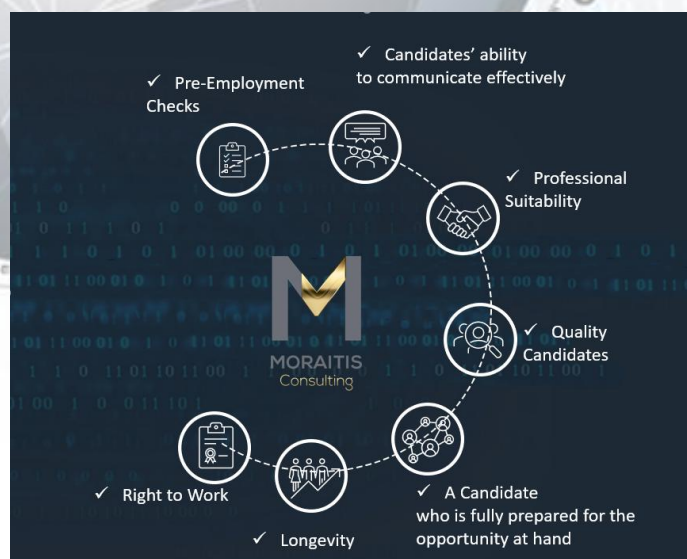

This expertise allows us to deliver recruitment and labour-hire solutions of the highest quality, tailored to your organisation's specific needs.

We take your business success personally. As strong advocates for quality, we are committed to helping you achieve your workforce goals and ensuring the successful delivery of your business objectives.

Our approach includes:

- **Comprehensive Recruitment Process:** We employ rigorous methods to source, screen, and select the most qualified candidates for each role.
- **Compliance and Quality Assurance:** We ensure full compliance with all legislative requirements and uphold the highest standards of service delivery.

“Screened, verified, and ready to succeed.”

ICT CONSULTING

Moraitis Consulting delivers tailored ICT consulting services that align technology with business objectives to drive measurable outcomes. With over 20 years of experience across government and enterprise sectors, we provide strategic advisory, governance and end-to-end project delivery for complex ICT environments.

Our multidisciplinary team and extensive contractor network enable us to rapidly scale capability, optimise technology investments and support organisations through transformation—improving performance, efficiency and long-term business success.

Our ICT Consulting strengths include, but are not limited to:

Strategic Planning and Advisory	Governance and Executive Services
Program & Project Delivery	Business Improvement
Digital Transformation / AI Strategy	Business Analysis (Executive and Technical)
ICT Infrastructure & Networking	Solution Design and Architecture
Procurement (end to end)	Cyber Security and Information Management
Organisational Change Management	Testing and Quality Assurance
Data Analysis and Insights	Business Systems and Applications
Service Delivery / Transition Advisory	ICT Policy Development

AI STRATEGY & IMPLEMENTATION

"AI is the highest-returning outsourcing decision your business can make – cutting costs, eliminating bottlenecks and compounding growth around the clock."

At the forefront of today's business landscape, artificial intelligence is no longer a future consideration, it is a present-day competitive advantage.

Our AI Strategy & Implementation service is designed to help businesses of all sizes cut through the complexity of AI adoption and translate it into measurable outcomes. We work alongside your leadership team to assess your current operations, identify high-impact opportunities and develop a tailored AI roadmap aligned with your business goals. From selecting the right tools and frameworks to managing change and upskilling your team, we guide you through every stage of implementation, ensuring AI is embedded into your processes in a way that is practical, scalable and sustainable.

The result is a smarter, more agile organisation equipped to operate with greater efficiency, make better decisions faster and unlock new avenues for growth.

Our AI skillset includes:

Strategic Leadership

- Develop enterprise AI strategies, roadmaps and prioritised use cases aligned to business objectives.

Business Transformation

- Redesign processes, lead change and embed AI tools to improve efficiency, productivity and growth.

AI Literacy & Frameworks

- Apply recognised methodologies and support informed selection of AI tools, platforms and vendors.

Governance & Risk

- Establish responsible AI governance, ethical policy settings, risk controls, compliance practices and assurance mechanisms covering privacy, security, bias, transparency and regulatory obligations.

People & Culture

- Upskill teams, build internal capability and connect technical delivery with executive decision-making.

Data & Decision Making

- Improve data readiness and translate AI insights into actionable business recommendations.

CYBER SECURITY & INFORMATION MANAGEMENT

Managing and understanding information risks relating to cyber threat, security, privacy and other compliance obligations is becoming complex and a specialised field.

Our experienced team have been involved with the planning and implementation of large-scale Government cyber security programs and various security remediation audits and activities.

We work with industry leaders to advise on or implement best practice information management strategies and frameworks.

Our Cyber skills and experience include, but are not limited to:

- Governance & framework
- Cyber Security policies
- Direct and/or advisory on security risk assessments
- Direct and/or advisory on vulnerability penetration testing
- Direct and/or advisory on incident response and investigation
- Information / data management advisory
- Access to industry experts
- Cyber security product training

ICT TRAINING & MENTORING

We specialize in training and mentoring, providing digital skills development, customised training programs, and one-on-one guidance to help your staff achieve business goals and strengthen organisational capability.

- Mentor Business leaders and Project Managers into confident, successful and innovative leaders.
- Deliver onsite and offsite training to enhance digital proficiency, close skill gaps, and increase staff productivity.

Our Training Services Suite includes but are not limited to:

Digital Literacy	ICT Governance and Framework
Microsoft Office Suite	ICT Project Management
ICT Business Systems	E-safety / Cyber Security
Software and Digital Collaboration	Basic Workspace Ergonomics
